THE SPOONER SUBSTITUTE WAS PASSED BY SENATE

The Isthmian Canal, Although Not Fully Assured, Is Now Nearer Construction Than Ever Before.

By Associated Press.

Washington, June 19.—An isthmian canal, while not yet absolutely assured, is nearer to construction than it ever has been. The senate today by a majority of eight votes adopted the Spooner substitute for the Hepburn Nicaragua canal bill, the vote on the substitute being 42 to 34.

After two amendments to the measure had been adopted, one providing for a commission to supervise the construction of the canal and the other providing for the issuance of $130,000,000 of two per cent gold bonds to raise money with which to construct the waterway, it was passed by a vote of 67 to 6.

It has been evident for several days that the Spooner substitute, which in brief provides that the president shall select the Panama route if he can obtain a clear title to the Panama Canal company's property, but otherwise he shall adopt the Nicaragua route, would command the votes of a majority of the senate. The Panama route was considered more desirable by the senate than the Nicaragua route. The only question left open is the title to the property and that the president will determine if the house should adopt the senate's amendments to its bill.

Mr. Morgan of Alabama closed today's debate with an earnest appeal for the adoption of the Nicaragua route. He had been preceded by Mr. Clark of Montana in support of the Nicaragua route and Mr. Allison of Iowa in support of the Spooner proposition. Only minor amendments except those indicated were adopted, all others being voted down.

The senate had some debate over the trouble into which it had gotten with the house over amendments to the army appropriation bill and finally asked for a conference with the house, ignoring the offensive message which caused the trouble.

The detailed vote on the Spooner amendments follows:

Yeas—Aldrich, Allison, Bard, Beveridge, Burnham, Burrows, Burton, Clark (Wyo.), Cullom, DeBoe, Dietrich, Dryden, Fairbanks, Foraker, Foster (Wash.), Frye, Gallinger, Gamble, Hanna, Hansbrough, Hoar, Jones (Ark.), Jones (Nev.), Kean, Kittridge, Lodge, McComas, McCumber, McMillan, Mason, Millard, Platt (Conn.), Pritchard, Proctor, Quarles, Scott, Spooner, Teller, Warren, Wellington and Wetmore—42.

Nays—Bacon, Bailey, Bate, Berry, Blackburn, Carmack, Clapp, Clark (Mont.), Clay, Cockrell, Culberson, Daniel, Dubois, Foster (La.), Harris, Hawley, Heitfeld, McLaurin (Miss.), Mallory, Martin, Mitchell, Morgan, Nelson, Patterson, Penrose, Perkins, Pettus, Platt (N. Y.), Quay, Simmons, Stewart, Taliaferro, Turner, Vest—34.

STRONG SPEECH IN FAVOR OF THE PHILIPPINE BILL

By Associated Press.

Washington, June 19.—The opening day of the week's debate on the Philippine government bill in the house was signalized by a remarkably strong and exhaustive speech by Mr. Cooper (Wis.), chairman of the committee on insular affairs. He spoke for almost three hours and was given close attention by both sides of the house. Much of the speech was a general defense of the policy pursued by the administration and drew repeated applause from his side of the house. He contended that the problem of the Philippines should not be a party question, that both political parties brought on the war with Spain and the votes of members of both parties ratified the treaty which made the islands American territory. The most telling portion of his speech was the parallel he drew between the attitude of the opposition and the attitude of the opposition during and immediately succeeding the civil war.

Mr. Jones of Virginia, the ranking member of the minority of the committee, made an able presentation of the Democratic position, but he yielded the floor after speaking about an hour and will resume tomorrow morning. These were the only speeches made today.

The order under which the house is operating provides for night sessions until Wednesday for debate only, but as no one was prepared to speak tonight the order for the session this evening was vacated.

WHITE SCALE THREATENS TO DESTROY SHADE TREES

Serious Damage Already Done to Maples and Box-Elders—Probable Cause and Practical Remedies.

A serious insect plague threatens the shade trees of Colorado Springs and unless some active measures are taken immediately to destroy the pest it is likely that this city will be afflicted as California has been afflicted and will lose some of her boasted beauty.

Some time ago there made its appearance in this city an insect which was known as the white scale. But little attention was paid to it although it was recalled that last year some of them had been noticed in Colorado Springs. Lately, however, the bug has commenced operations again and as it propagates rapidly the branches of maples, box elders and the woodbine which it most generally attacks are covered with the bugs and the white soft netting which it weaves probably to protect itself from its enemies.

The white scale is a non-locomotive bug which came originally from China to California and in the latter place has appeared in such enormous numbers as to make its destruction the subject of legislation. By "non-locomotive" is meant that it does not fly nor walk. Like Topsy it just grows and it sticks right where it begins to grow, which is not on the leaves of the trees but on the small tender limbs where it can sap the vitality of the tree. Starting from a microscopic embryo it has been known in California to grow to the size of a man's two fists. The scale is usually the result of a dry season and it is probable that the insect got its start in Colorado Springs during the dry weather of the early spring just as the drought in California is supposed to have been the cause of its appearance there.

Several remedies are suggested for ridding the city of the menace of the pest. It is said that they can be washed off the limbs with the garden hose save on the highest limbs, which the water will not reach with sufficient force. More effective is a spray of kerosene, water and some acid. Mr. J. F. Clarke of North Weber street has a novel method which he will try. He has been in California where such determined efforts were made to destroy the scale and his method is to get a worm to eat up the insect. He has sent for several of these worms which also propagate very fast, and eat up the bugs in a short time.

Some measures will have to be taken quickly if complaints which are coming from all parts of the city are true and it is probable that the matter will be taken up immediately by the street committee of the city council.

Alderman Capell and City Engineer Case have been working hard in the canons and on the mountains dealing with the caterpillar nuisance, a number of men have been employed to burn the caterpillars which are so numerous in those places, and it is believed that the city officials now have the situation well in hand.

COURT ACQUITS GARDNER OF UNBECOMING LANGUAGE

Special to the Gazette.

Denver, June 19.—The report of the Gardner inquiry committee was made public by Governor Orman this morning. The report finds that Gardner was interviewed by Mr. Irby of the Times but the report indicates that the things credited to him were said in a sympathizing manner. At least it finds that his language was not unbecoming an officer or a gentleman.

In his letter to the governor asking for a court of inquiry Adjutant General Gardner asked that the board ascertain whether or not his language was unbecoming an officer and a gentleman. This was the only thing set forth in the governor's order for the committee to determine. The committee finds that his language was not unbecoming an officer and a gentleman.

The findings of the court are as follows:

"That on the forenoon of March 6, 1902, Mr. John S. Irby, as reporter for the Denver Times, called as was his custom, at the adjutant-general's office for news items. Addressing General Geo. F. Gardner he called his attention to the resolutions passed by the legislature relative to the recent loss of life in the Telluride district. Some conversation ensued on the matter in the course of which General Gardner made use of the expression 'It looks like the judgment of the Lord on those poor fellows' or words to that effect. The labor troubles of July, 1901, were spoken of, and the conduct of the Miners union at that time was commented on.

"The evidence clearly establishes the fact that a conversation was held between Mr. Irby of the Denver Times, and General Gardner on the forenoon of March 6, 1902, relative to the loss of life in the Telluride district during the several months preceding, and the conversation was regarded as an interview by the reporter, and was, therefore, turned into the paper for publication.

"The testimony clearly establishes the fact that General Gardner did not regard the conversation in the light of an interview.

"Mr. Irby testified that he did not write up the interview until about 21 hours after the conversation occurred, and that the head lines:

"JUDGMENT OF GOD UPON THE MINERS," SAYS GEN. GARDNER, OF TELLURIDE DISASTER

"Adjutant-General of Colorado Makes Sensational Declaration—Says Vengeance of the Almighty Repaid for The Crimes That Have Been Committed in the Name of Labor'

were not written by himself but were added in the office of the Denver Times by a person or persons not present at the interview.

"A preponderance of the evidence also establishes the fact that paragraphs one (1) and three (3) were not spoken but that the balance of the interview was reported substantially as it occurred.

"The review as published was not a continuous statement by General Gardner but was the statement as Mr. Irby understood General Gardner's expressions as brought out by questions and comments by Mr. Irby.

"The conversation occupied about 10 or 15 minutes during a part of which time General Gardner was reading a letter, giving but partial attention to Mr. Irby's comments.

"The testimony of witnesses who heard any part of the conversation is positive that in all that was said General Gardner showed no spirit of vindictiveness or ill-feeling towards the citizens of Telluride or the labor organizations as such, but on the contrary expressed sympathy over the loss of life from various causes in the Telluride district, deploring the calamity and approving of the touching sentiments in the resolutions of the general assembly.

"The subjects of conversation were upon the resolutions passed by the legislature, the various calamities which have visited Telluride and the sentiments of the Miners union towards the national guard. All these subjects were matters of common knowledge, frequently discussed in the papers, and were subjects of comment editorially and otherwise, in the public press.

"In the alleged interview between General Gardner and Mr. Irby the court finds that General Gardner made use of no expression which would be unbecoming an officer and a gentleman."

The report is signed by John Chase, president, brigadier-general commanding First Brigade, N. G. C., and James H. Brown, recorder, colonel A. D. C. G. S.

The outcome of the entire affair is very unpopular with the labor people, as it is a well known fact that when the investigation was being conducted, a number of witnesses to whom Gardner confirmed the interview were not allowed to testify.

Governor Orman left for the east on a business trip tonight, and Lieutenant Coates will be acting governor during Governor Orman's absence. Rumor has it that Mr. Coates will remove the adjutant general if the latter does not resign.

Robert G. Seymour, Jr., of the Gazette, will leave today over the D. & R. G. for Glenwood Springs, where he will spend about two weeks at the Hotel Colorado.

ALL QUIET IN PATERSON

Majority of the Mills Closed Wednesday Resumed Work.

By Associated Press.

Paterson, N. J., June 19.—In the main this was a quiet day in this city. The most important event was the suspension from duty of Chief of Police Fred Graul by Mayor Hinchliffe and the assumption by the mayor of the duties of that position.

William McQueen, the Englishman who was prominent at yesterday's meeting before the rioting began, has left the city and is believed to be in New York. Galleani, the Italian, and Grossman, the German, who are said to have been prominent yesterday, have also kept from public notice. Lacking a leader and keeping out of the heavy rain of the early day, the rioters of yesterday did nothing when a majority of the mills they closed yesterday by their violence, resumed work.

The police are under orders to shoot straight if they should have another encounter with the rioters and the mayor has had copies of the riot act distributed.

This week's edition of La Questione Sociale, one of the anarchist papers, was set up here, but was sent to a Passaic printer to run off the forms. He was ordered not to handle it and complied.

CLEVELAND AND HILL MET AT TILDEN CLUB MEETING

Party Democratic Unity Was the Keynote—Bryan Was Invited to Attend But No Reply Was Received.

By Associated Press.

New York, June 19.—Democratic unity was the keynote tonight of a great gathering of representative Democrats who had come to attend the opening of the handsome new quarters of the Tilden club.

Addresses were made by prominent Democrats and afterward a collation was served in the banquet hall to the distinguished guests of the evening and a buffet supper served in the basement for the rank and file.

To Democrats the event was one of the most memorable for many a day, as Grover Cleveland and David B. Hill met in harmony, seeking to draw the factions of their party together. It was the first public political appearance of the ex-president in [illegible] years.

William J. Bryan had been invited to attend, though not to speak, but no reply was received from him.

Mr. Cleveland arrived at the club house accompanied by H. D. Hotchkiss, John [illegible] Bryant and John C. Calhoun. He had scarcely got into the building when ex-Senator David B. Hill, accompanied by [illegible] Kellogg, came in. Mr. Hill's eye caught Mr. Cleveland as soon as he had entered the spacious club foyer and a moment later they were cordially shaking each other's hand.

Long and prolonged applause greeted the two men as they entered the assembly room. President Dowling of the club soon began to speak and in introducing ex-President Cleveland said:

"We have with us here tonight the greatest of living Democrats. The first speaker I have the honor of introducing to you is the successful candidate of two national campaigns, ex-President Grover Cleveland."

There was tremendous applause as Mr. Cleveland ascended the small platform. This applause wound up with three cheers and a tiger. When quiet was restored the former president began speaking. He said:

"I have been urged to participate in this occasion by those who have assured me that this handsome structure is to be dedicated tonight to the rehabilitation and the consolidation of the Democratic party under the inspiration of a name which during the days of Democratic strength and achievement was honored by every Democratic household. Such an assurance made to one who followed with hearty devotion the leadership of Samuel J. Tilden when living, and who has since found in his career and fame the highest incentive to Democratic steadfastness, could hardly fail to overcome the temptation of my contented retirement from political activity. Perhaps there are those who would define my position as one of banishment instead of retirement. Against this I shall not enter a protest. It is sufficient for me in either case that I have followed in matters of difference within our party the teachings and counsel of the great Democrat in whose name party peace and harmony are tonight invoked. No confession of party sin should therefore be expected of me. I have none to make, nor do I crave political absolution. I am here to take counsel with others professing the same party faith, concerning the Democratic situation. I suppose we all are convinced that this situation might be improved and some of us may think it is perilously undermined. Whatever the measure of its impairment may be, our condition as an organization cannot be improved by calling each other harsh names nor by inaugurating a system of arbitrary proscription and banishment. The members of a business firm in financial embarrassment should not sit down and look in each other's face in mute despair, neither will they regain financial soundness or the confidence of the business community by recrimination and quarrel, nor will any members of the firm aid in its restoration to solvent strength by an angry insistence upon a continuation of the business methods which have invited its embarrassment.

"The Democratic party is very far from political insolvency, but no one here should be offended by the suggestion that its capital and prospects have suffered serious injury since Mr. Tilden was elected president. Then, and afterwards, northern Democratic states were not rare curiosities, northern Democratic senators, now practically extinct, were quite numerous and northern Democratic governors, now almost never seen, were frequently encountered.

"The Democratic harmony of which we hear so much cannot be effectively constructed by mathematical rule nor by a formal agreement on the part of those who have been divided that there shall be harmony. It grows up naturally when true Democratic principles are plainly announced, when Democratic purposes are honestly declared, when as a result of those, care and enthusiasm stir the Democratic blood. It was such harmony as this, growing out of such conditions which, with the battle cry of 'Tilden and reform,' gave us the Democratic victory of 1876 against odds great enough to discourage any but a harmonious Democracy and against an opposing force brazen and desperate enough to take from us by downright robbery what the voters of the land gave to us.

"I believe the times point to another Democratic opportunity as now at hand, but I believe we shall reap the fruits of it only by following the line of conduct I have indicated. In any event, I have a comforting and abiding faith in the indestructibility of the party which has so many times shown its right to live and its power for good, and I am sure the reserve of patriotic Democratic wisdom will at the same time declare itself in the rescue of our country and our party.

"My days of political activity are past, and I shall not hereafter assume to participate in party councils. I am absolutely content with retirement, but I still have one burning, anxious political aspiration. I want to see before I die the restoration to perfect health and supremacy of that Democracy whose mission it is to bless the people—a Democracy true to itself—untempted by clamor—unmoved by the gusts of popular passion and uncorrupted by offers of strange alliance—the Democracy of patriotism—the Democracy of [illegible]—the Democracy of Tilden and the Democracy that deserves [illegible] win [illegible]."

At the point in his speech when Mr. Cleveland announced his retirement the crowd [illegible].

Senator David B. Hill, who spoke next, was received almost as enthusiastically as Mr. Cleveland. Mr. Dowling, in introducing him, said:

"Mr. Hill is today the recognized leader of his party in New York and under his guidance and his leadership we are confident of victory."

Mr. Hill spoke as follows:

"The signs of the times point unmistakably to an awakened interest in the promotion of success of Democratic principles of government. These manifestations, however, are not confined within strict party lines, but a new activity in political affairs is displayed as well among those of independent proclivities and [illegible] generally who are not satisfied with existing political conditions and [illegible] change of the public policies now prevailing.

"There is [illegible] among thoughtful [illegible] something [illegible] foreign policy of the [illegible] administration."

Mr. Hill here referred to [illegible] speech of [illegible] the Philippine question and said that it had made a profound and lasting impression upon the heart and [illegible] of the country.

"This great and patriotic speech," continued the speaker, "was not met [illegible] answered by the partisan address of President Roosevelt delivered on [illegible] day in violation of the proprieties of the occasion, wherein he [illegible] recognized distinctions which exist between the administration and the government, between the army and the government and between all the other officials of the government and the government itself, and assumed to question the loyalty of those who have ventured to criticise the conduct [illegible] of a few officers of the army, who, if [illegible] official reports are correct, have undoubtedly disgraced the uniform which they wear.

"This confusion of the state with the rulers thereof is not new in history. It was Louis XIV who made the same mistake when he assumed to be France and uttered the famous declaration 'I am the state,' a remark which might have lost him his head in later times of less despotism, and President Roosevelt, in another sense, seems to have already lost his head when he forgets that this country differs from both ancient and modern France in that here it is not a crime to criticise the army or the president or any other servant of the [illegible] people, and he needs to be reminded that this is a government of laws, a government under a written constitution wherein the right of every citizen to freely express his sentiments upon all administrative questions is expressly guaranteed—and that loyalty to the government does not consist in loyalty to individuals or to the policies of those who happen to hold official position.

"Loyalty to this government consists in attachment to our free institutions—in the faithful observance of constitutional provisions—in respect for the flag as the emblem of civil liberty and support of the authorities of the United States against the attacks of our foreign or domestic foes, but it does not consist in ostentatious professions of 'intense Americanism' [illegible] to the preservation or spread of [illegible] forms of government [illegible] nor in suppressing free speech [illegible] or in conquering the free people of other and distant lands who desire to govern themselves, or in unlawfully sending accredited representatives of this government abroad, without the consent of the senate to witness the coronation of a king whose monarchial government to its shame be it said has just succeeded in crushing the two struggling republics of South Africa. And right here I may be permitted to suggest that the administration of President Roosevelt will be particularly noted in history as the one during the existence of which the republics of those brave and gallant people were destroyed—destroyed without one word of protest or one effort to save them or one kind word of sympathy for them in their unequal struggle expressed on the part of this—the greatest republic of the world whose influence should always be exerted on the side of free institutions.

"In contrast with that supine attitude of the Roosevelt administration we should not forget the vigorous and patriotic action of that Democratic president who honors this club with his presence here tonight, who when that same mighty empire of Great Britain in 1895 attempted to crush the republic of Venezuela promptly sent that famous message to congress which electrified the country wherein he insisted that Great Britain must not be permitted under the pretense of a boundary dispute to seize Venezuela without first submitting the alleged difference to arbitration or else this government would interpose its strong arm for the protection of that republic. And Great Britain finally concluded to arbitrate the dispute and Venezuela was saved from destruction."

The ex-senator then took up the subject of Cuba, dealing first with the administration of General Wood, whom he bitterly arraigned. "The use of money for partisan and lobbying purposes in aid of administrative measures, pending before congress," he declared, "served to emphasize the irresponsible and dangerous character of arbitrary military rule anywhere whether temporary or permanent.

"The subject," he went on, "demands the investigation of congress and the prompt punishment of the offending official if he can be reached through criminal or military law.

"The history of the country does not furnish a more flagrant breach of official duty as well as official propriety than that presented by the misconduct of Wood. Yet he had neither been arrested nor rebuked nor censured, nor held to account by the administration [illegible]

[illegible]

"It is not believed that it is the province of the Democrats in congress to assist in the consummation of any such inadequate and questionable scheme.

"Let the injustice be wholly or substantially righted [illegible] by proper remedial legislation, but by [illegible] complete and comprehensive [illegible] based upon sound Democratic principles and long tried lines.

"A [illegible] measure [illegible] which does not contemplate at least a 50 per cent reduction of the existing tariff burdens. When the people ask for bread we should not offer them a stone.

"If the policy of protection is to continue in whole or in part to be tolerated by the country it may be well to consider whether it were not better that its evils should not be attempted to be mitigated by the [illegible] of popgun legislation, but that our efforts should be [illegible] until the country has been [illegible] with its monstrous injustice that it is prepared to destroy the whole system of protection and to return to a constitutional and just system of taxation for purposes of revenue only.

"Neither [illegible] in [illegible] to the appeal of Cuba for relief from the tariff [illegible] by the Republican party. We were the friends of Cuba when she was suffering from Spanish oppression and when a Republican administration was reluctant to interfere in its behalf.

"We are the true friends of Cuba today and we are prepared to [illegible] not merely a paltry 20 per cent, but the full measure of justice to which she is entitled and which the present national administration refuses to concede to her."

Mr. Hill asserted that the [illegible] of many Democratic contentions of [illegible]. He called the [illegible] the Kansas City platform which [illegible] the Dingley law a [illegible] measure and [illegible] that the measure had not only [illegible] creating more trusts than ever before in the history of the country, but it [illegible] in stifling competition to a greater extent than was ever known. He [illegible] further that [illegible] the cost of [illegible] had caused more strikes on the part of the workingmen than any [illegible] in our history.

"That there has existed for some time a popular sentiment demanding relief in some form from these exactions is quite apparent. Acting upon the assumption that the trusts should be prosecuted by their friends and not their enemies, the national administration [illegible] to institute [illegible] suits to test the efficacy of the Sherman act. What has been the net result? A few temporary injunctions have been obtained with the tacit consent of the trusts themselves, or at least with little or no opposition which in general terms restrain the trusts from violating the Sherman act (which they expressly deny they have violated or are now violating) and little or nothing else has been accomplished and the congress will be soon adjourned for the summer. But the pitiful [illegible] it is a sufficient commentary upon the whole proceedings to say that no criminal prosecution has been instituted, no arrest has been, and no indictment found anywhere.

"What the people want is immediate relief from the present high prices extorted from them. That relief can be obtained by the application of a speedy and effectual remedy in the repeal of all tariff duties upon productions controlled by the trusts."

Mr. Hill was followed by Governor Montague of Virginia, and Col. William A. Gaston of Boston. The speech-making was closed by former Mayor Thomas Taggart of Indianapolis, whose address was necessarily short.

D. G. Patterson, who was connected with the D. & R. G. local offices last season, has been appointed traveling passenger agent of the Cog road to take the place made vacant by the resignation of Mr. Griffith, who will look after his business interests in Manitou.

CRIPPLE CREEK NEWS NOTES

Train Held Up by an Army of Caterpillars—Official Guide of the District.

Cripple Creek Bureau
Colorado Springs Gazette

Cripple Creek, June 19.—The Midland Terminal train that left Colorado Springs at 6:30 o'clock this evening and was due to arrive here at 9:0 p. m. was delayed for 40 minutes tonight by an army of caterpillars. The little insects covered the rails for about one-half a mile near Gillett and the engine found it impossible to haul the train up the steep grade. Members of the train crew with brooms cleared the rails and after wasting quite a little steam the train again started. The Colorado Springs Short Line met with a similar experience a few nights ago.

The pupils of St. Peter's Catholic school held their first annual closing exercises tonight at the Grand Opera house. This is a new institution having been in operation only during the past term. Notwithstanding its short existence there have been 170 pupils enrolled. Tonight's program at the opera house was excellent and the interior of the theater was tastefully decorated for the occasion.

Numerous fishing parties leave the district daily for Beaver and Four Mile creek and in nearly every instance the fishermen met with good success.

The Rocky Ford baseball team will arrive here on Sunday morning to play a return game with the Cripple Creek team at Union park. At Rocky Ford the local team won a game and lost a game and the game on Sunday to play off the tie promises to be interesting. An excursion will be run to the camp from Rocky Ford and a brass band will accompany the ball team.

W. Harbeck, the press agent of the Cripple Creek chamber of commerce, has returned from Colorado Springs where he has been distributing the official guide of the district. Mr. Harbeck also distributed the guide in Pueblo and Denver. He states that business men are of the opinion that the guide is the best thing that Cripple Creek has yet got out for advertising the camp.

TO REPAIR DAMAGE AT HULL CITY PLACER

Special to the Gazette

Independence, Colo., June 19.—An important meeting of officials of the Independence T. & M. Co. and of the Cripple Creek Mining company, leasing on the Hull City placer of the former company, will be held here on Monday at the office of the company. At this meeting will be decided definitely just what action shall be taken to put the Independence Cons. property in working condition again. Eben Smith, president, and W. P. Dunham, secretary and treasurer of the Independence T. & M. Co. and J. G. Terryhill, president, J. P. Russell, manager, and Sherman Bell, superintendent for the Cripple Creek Mining company will be in attendance. Since the cave-in at the Hull City Placer no work has been done through the main workings. It is probable that engineers will be able to put the shaft in working condition and that the machinery and shafthouse will be moved to firm ground west of the present location. At any rate it will be definitely decided on Monday what action will be taken.

Tax on Babies.

Extreme hot weather is a great tax upon the digestive power of babies, when puny and feeble they should be given a few doses of White's Cream Vermifuge, the childrens' tonic. It will stimulate and facilitate the digestion of their food so that they soon become strong, healthy and active. 25c at Hefley-Arcularius Drug Co.

TEMPLE THEATER TONIGHT.

"Embassy Ball" will be the attraction at Temple theater tonight. This is the play that made the "Jersey Lilly" famous throughout the world, and there is no doubt but the Nobles will give it a good presentation. In their varied productions this week the company have shown themselves to be versatile and capable of handling anything from farce comedy to romantic drama and with credit. At the remarkable low price of admission crowded houses should greet them at every performance.

NEWS NOTES FROM VICTOR

Fire Destroyed Residence of J. T. Minger at First Street and Lee Avenue.

Victor Bureau
Colorado Springs Gazette

Victor, June 19.—At an early hour this morning the fire department was called to the home of J. T. Minger, a miner residing at First street and Lee avenue. A lamp had exploded in Mr. Minger's home and quite a blaze resulted. The house was partially destroyed before the arrival of the department. The loss was about $700, covered by $500 insurance.

Funeral services over the body of Helen M. Betts, the 16 year old daughter of Mr. and Mrs. J. W. Betts, were held this afternoon from the Methodist church at Goldfield. The services were conducted by Rev. Mr. Auman and the interment was at Sunnyside cemetery.

State Geologist J. W. Finch returned yesterday after an extended trip through Arizona and New Mexico. Mr. Finch is consulting engineer for the Gold Coin M. & L. Co.

Mrs. H. L. Abbey has returned from an extended visit to her old home at Grand Junction.

Col. J. F. Walker of Kansas City is stopping in Victor this week looking after his investments.

Mesdames J. W. McKenzie, Mc[illegible] and Samuel Hartzell are entertaining their sisters, Mrs. F. Billinger and Mrs. G. Costello of Chicago.

Jack Slavin, a miner employed at the Gold Coin property, met with a serious accident at 9:45 o'clock this evening. Slavin was at work in a raise when he lost his balance, and fell into the ore shoot, a distance of 80 feet. A large quantity of ore fell upon him burying his body to the neck. Harry Quick, a fellow workman, went to Slavin's aid, and released him from his perilous position. Slavin is seriously injured, and the doctors are now working upon him.

ELKTON

Special to the Gazette

Elkton, June 19.—J. M. Leonard left this morning for Denver where he will meet Mrs. Leonard and children who are returning home from a visit of two months at Lexington, Mo.

Mrs. Chal Baney will leave tomorrow for Canon City where she will spend a week visiting friends.

Mr. and Mrs. P. B. Geer have left for Denver where they will visit for several weeks.

Mrs. W. E. Marble, who has been here for the past 10 days visiting Mr. and Mrs. Frank P. Rollins, left yesterday for her home in Colorado Springs.

The Figure Puzzle is now running. Cash prizes of $150. See page 7.

NEWS NOTES FROM PUEBLO

Elks Day at the Carnival Was Attended by Many Representatives From Other Towns

Pueblo Bureau
Colorado Springs Gazette
Farias Hotel

Pueblo, June 19.—Today was Elks day at the carnival. About [illegible] members of the Colorado Springs [illegible] in Pueblo [illegible] W. K. W[illegible] [illegible] Dr. [illegible] Gillett [illegible] J. W. Thompson, W. H. Moore [illegible] R. Kelsey, Dr. [illegible] White, Dr. D. J. Christopher. The visiting party intends to return to Colorado Springs on [illegible] tonight. William [illegible] of Cripple Creek [illegible] F. Manning of Victor and other members of [illegible] and were in a special car [illegible] 28 members of the Florence lodge, including the following members and their wives: W. I. Weaver, Albert Brown, [illegible] J. M. [illegible] and [illegible] J. P. McCl[illegible] [illegible] Martin with his [illegible] from Canon City and a large delegation from the Canon [illegible] lodge No. [illegible] arrived at noon and will return [illegible] at 12:05 tonight. Members of the Trinidad lodge No. 180 were in Pueblo yesterday and remained for the events today. The crowds were the largest ever gathered in Pueblo.

The ticket brokers of the city have organized this afternoon for the purpose of protecting against rate cutting. The members each placed $50 in the First National bank as evidence of good faith.

PLATTE AVENUE [illegible] FOUNTAIN STREET

The old Platte avenue bridge over Shooks run is being moved south to Fountain street. Most of the bridge was moved yesterday, and the rest will be moved today.

The new bridge is nearly in shape for travel. Owing to the removal of the old bridge the approach to the new bridge could not be finished yesterday. Alderman Capell hopes to have the grading finished today so that the bridge can be thrown open for travel. It is found that considerable more work will have to be done on the wing walls and on the balustrade and this work will entail an extra cost of $[illegible]. When completed the bridge will have cost $4,088.

The grading of Institute street on the east side has been completed. This work cost $700.

Salt Lake and return $15.00 July 1 and 2, good 30 days. July 1 to September 30 inclusive $23.00 good to October 31. June 24 and 27, July 1, 16 and 23 $20.00.

The Mississippi Bubble

"It is the Romance that is Paramount"

A NOVEL BY EMERSON HOUGH.

It is no over praise to say that in literary quality, sustained dramatic interest, and that in its pathos and humor it is far beyond all—save perhaps two or three—books that have been published within the last half dozen years.—The Transcript

It is surprising as well as pleasing in these days to find a novel written of other days completed with the skill and gracefulness the style that the author of "The Mississippi Bubble" has achieved.—Philadelphia Evening Telegraph

Bonbright & Co. Gets Fine Compliment

A communication which was highly complimentary of the local offices of William P. Bonbright & Co. was received here yesterday by Philip D. Wilson, the representative of the Bon[illegible] brights on the floor of the mining exchange. It was sent by William P. Frenaye, who recently went to New York to take charge of the Wall street offices of the company and read as follows:

"The more boards (stock and grain quotations) I see in the east the more firmly convinced I am as to the vastly superior one your office affords. It is unequaled in these parts. Presume, however, some of the players here manage to get along with their poor facilities, but at the same time I believe our board would stimulate and increase even the stupendous operations of New York."

Mr. Frenaye has been but a short time in New York, but reports that everything is going along nicely and that he is enjoying life in the midst of the busiest part of Wall street.

SEMI-ANNUAL CONFERENCE TONIGHT

The invitation committee of the Young Men's Christian association will hold their semi-annual conference this evening in the Y. M. C. A. rooms. Refreshments will be served by the Women's auxiliary. The work of this committee of which Mr. H. D. Thurston is chairman, is visiting the different hotels, boarding houses and parks on Sunday afternoon to hand out printed invitations to the men's gospel meeting which is held at 4 o'clock. A great many stranger young men are reached in this way and the committee is considered one of the most important in the association.

THE MACKEY CASE GOES TO THE JURY

In the criminal division of the district court the case of the People versus Mackey was on trial all day. The jury had been impaneled the day before, but the taking of the testimony did not begin until yesterday morning, while the final argument of District Attorney Trowbridge was not made until late in the afternoon.

The case developed no sensational features, but evidence was introduced to show that the struggle out of which grew the present charge of assault with intent to kill was a very bloody one, and that it was made with insignificant provocation. Attorney W. K. Brown defended Mackey and endeavored to show that the case was not so bad as had been made out and that the bloodshed was the result of youthful folly rather than of deliberate viciousness. The jury retired at 4 o'clock.

COLORADO SPRINGS GAZETTE.

PUBLISHED EVERY DAY IN THE YEAR.

SIXTY CENTS A MONTH. SEVEN DOLLARS A YEAR

FIFTY THOUSAND PEOPLE FOR COLORADO SPRINGS.

IN Peoria, Illinois, and in several other eastern cities, clubs have been formed to double the population of such cities within a given number of years.

In Peoria there is a 100,000 club, and it is doing invaluable work for the city. The club ably supplements the work of the local chamber of commerce, and does much work which the chamber cannot attend to.

None of those eastern cities are so favorably located for a rapid increase in population as Colorado Springs is.

With the charm of our climate and scenery, with our unparalleled advantages as a resident and educational city, with our favorable location as a commercial and manufacturing center, Colorado Springs should have a population of 100,000 people within the next five years, and 50,000 people within the next 18 months.

The chamber of commerce and local press have done very much to attract people, but we need an organization to give its undivided attention to visitors and others when they arrive and to present to them in an attractive manner the resources and advantages of Colorado Springs as a business and residence city.

We do very little in a public way to entertain and interest our visitors, and there is so much that we easily could do by concerted effort.

Some of our energetic and public-spirited citizens should organize a 50,000 population club.

Such an organization would help the city in every way.

For instance, one of the things which such an organization might encourage would be home trading in the purchase of all articles carried by our local merchants.

Colorado Springs people are already more loyal to home merchants than the people of almost any other American city, but even our people buy many things in the east which they could get here just as well and at just as low prices as they can in New York.

For a city of its size, Colorado Springs has remarkably fine stores. In fact, neither Denver nor any other city in the state has any finer stores nor any better assortment of goods.

Our merchants make their importations direct for foreign made goods, and they buy their domestic goods at the same factories and wholesale houses in the east where the stores in the large eastern cities buy their goods, and prices here are no higher than they are in Denver, San Francisco or any other of the transmissouri cities.

Our stores are always the marvel of visitors to the city. They cannot understand how such splendid establishments can be maintained in a city of this size.

The only way they can be maintained successfully is by the liberal patronage of our own people, and of those temporarily within our gates, who soon learn that they can get everything they want in Colorado Springs about as cheap and just as good as they can in New York or Chicago.

One of the best ways to reach the 50,000 population mark is to make it necessary for our merchants to constantly increase the number of their employes by an increase of patronage.

The Elks, either as individuals or as an organization, can render invaluable service to the 50,000 population movement by some sort of concerted action, and, as they are always patriotic and progressive, this movement offers an excellent field for their efforts.

Let us have a 50,000 population club, and let us have 50,000 residents here inside of the next 18 months.

SETTLEMENT OF DENVER'S LABOR STRIKE.

THE people of Denver are to be congratulated upon the valuable service rendered them by the local chamber of commerce in settling the woodworkers' strike in that city.

The strike injured Denver quite seriously in many ways outside of the loss to the merchants, and set it back in its building operations several months.

The striking woodworkers have been willing for some time to call the strike off, but the mill owners arbitrarily determined they would not reinstate the men until the Central Labor council, to which they belonged, had been dissolved.

Mr. R. H. Malone, the able president of the Denver chamber of commerce, took the matter up two weeks ago when a settlement looked most unpromising, but by skill, patience and tact he succeeded in getting the mill owners to abandon their demand for the dissolution of the Central Labor council, and in getting the striking workmen to agree to a permanent board of arbitration.

The strike in Denver was adjusted in a similar manner to that of the teamsters' strike in Chicago—both by providing for means of arbitration for differences in the future.

Arbitration is a wise and just solution of many labor troubles, and it is to be regretted that we have no national compulsory arbitration law.

The present would be an excellent time to enact such a law, and nothing would do so much to prevent labor troubles or to hasten action upon the part of the Pennsylvania coal barons in making reasonable concessions to their employes.

But congress will probably content itself with talking about the welfare of the Cubans and the Filipinos until the session adjourns, and then the same old members—most of them retained attorneys or agents for the coal and other trusts—will be triumphantly re-elected by the united votes of the working people of the United States.

Amicable arbitration is an excellent thing until labor learns the lesson that its real interests will never be served until it unites its forces at the ballot box for the governmental principles which it believes right and just.

A STATISTICAL MYSTERY.

WHEN statisticians have nothing else to do, they amuse themselves with the census reports of the Children of Israel during the exodus. The facts as given seem to indicate that the population that came out of the wilderness after the 40 years of traveling was quite inconsistent with the number that crossed the Red sea, and various interesting theories and arguments have been advanced to account for the difference.

At the present time, however, a more recent mystery is engaging the attention of this sort of calculators.

We cannot get the exact figures without crossing the room for an encyclopedia, but the situation may be illustrated without too close a dependence upon them.

The combined population of the two Boer republics at the beginning of the war was 500,000. Of this number, according to the official reports of the British authorities, 600,000 have been killed in battle, accounted for as noncombatants, or captured and sent to St. Helena, Bermuda or some other health resort. According to these reports, the British army in South Africa has for some time been facing a horde of sturdy fighters whose numerical strength should properly be expressed by five figures preceded by a minus sign.

Since the declaration of peace, we are further informed (and again the figures are not precisely exact) that not less than 25,000 fully armed, equipped and bewhiskered Boers have flung themselves at the feet of their British conquerors and joined in singing "God Save the King."

"Figures won't lie," and the British official reports are above suspicion. If the statisticians cannot solve the mystery, what in the world are statisticians for?

---

committee made an excellent selection for secretary Chairman Lowry of the Arapahoe county Republican when he gave that position to Mr. Fred J. Chamberlain. Mr. Chamberlain is one of Denver's cleanest and most able young business men and his appointment assures an honest administration of the affairs of the secretary's office. Much progress has been made in Denver in turning the Stevenson gang down and it now begins to look as though Arapahoe county might have a Republican convention free from the dominance of the federal officeholders in that city.

The fight for decent party methods is bearing some excellent fruit, notwithstanding the sneers and obstructions of the gang organs and the gangsters.

GIFTS TO GOMEZ.

THE Democratic party of the United States is having such a very hard time of it in the effort to find campaign material that we can hardly blame it for making the most of some very petty, as well as of some very disagreeable, objects.

The gifts to Gomez belong in the first of these categories. It appears that the American governors of the island, General Brooks, and after him General Wood, judged it advisable, in order to secure peace and tranquility during the American occupation, to pay to the chief insurgent certain sums of money.

We are inclined to believe that there was nothing discreditable in this to General Gomez, according to the accepted standards prevailing in that community, and we are quite certain that there was nothing discreditable or dishonorable in it to the American officials.

That it has anything whatever to do with American politics is utterly absurd.

It will be interesting, however, to watch the efforts of the partisan press to manufacture campaign material out of what is merely a minor, though somewhat interesting, detail of current history.

The hotels in Colorado Springs, Manitou and Broadmoor are rapidly filling with southern and eastern visitors. We can scarcely realize during this delightfully cool weather in Colorado that St. Louis and the country east and south of it is sweltering in heat that registers over 90 degrees.

There is no such summer climate on earth as that of Colorado Springs and vicinity.

The railroad officials predict that we will have twice the number of visitors this year that we had last year and the manner in which they are coming in this early in the season verifies their predictions.

A gang organ remarks, "there is no gang." That is more prophetic that recitative. There is a gang yet, but it will soon cease to exist, thanks to the courage of those few newspapers in the state that are not owned or subsidized by the gang.

Mr. Stratton, owner of the city street railway system, and the management of the Short Line railroad won the gratitude of the editors by their generous treatment of the editorial association while in session in this city.

Public-spirited citizens, such as Colorado Springs is blessed with, are bound to make this a city second to none in the state in population, business and influence.

The Frank Bishop gubernatorial boom in Arapahoe county seems to be "overcharged."

THE SUGAR CONTENTION.

The western Republicans, who are called "insurgents" because they seek to defeat the proposed law to grant lower duties on Cuban sugar and tobacco, are acting in the interest of the beet sugar growers. There is no question about that. But the eastern Republicans who are insisting that the so-called "sugar differential" shall not be taken out of the tariff are acting entirely in the interest of the Sugar trust. That is also an unquestionable fact.

The southern Democrats in congress are mostly siding with the beet sugar men. But if the eastern Republicans would cease to insist on the excessive favors done to the Sugar trust in the Dingley act, the Democrats would then join them in granting the proposed concession on Cuban sugar.

That is the situation in a nutshell. It is said that Mark Hanna is not disposed to help Mr. Roosevelt drive through this scheme of continued favoritism to the Sugar trust as a party measure. If that be the fact it demonstrates once more the superior political acumen of the senator from Ohio.—(Hartford Times.

General DeWet says that God has decided against the Boers and directed them to be loyal to England. We hope somebody will make Webster Davis acquainted with this fact.—(The Hartford Times.

Most lovers of plants have found great difficulties in identifying many of the plants in Colorado by eastern botanics. Not only are many of the species new, but many plants which occur both here and in the east change under the altered conditions so much as to render identification difficult, if not impossible. The west has been a prolific source of new species whose descriptions are scattered in many rare publications.

With the change and reform in nomenclature now being adopted by botanists an expert specialist is needed to make headway on any extensive collection of western plants.

It is not generally known that the experiment station at the Agricultural college at Fort Collins has, in the course of years, made extensive collection of Colorado plants, mostly through the efforts of Prof. C. S. Crandall. This collection includes considerably more than a thousand different plants. For the past year the experts of the New York botanical gardens have been working on this collection, and it is now known that they are through the important families of Ranunculaceae, Cruciferae and Leguminosae. When this work is complete the experiment station will issue a bulletin for public distribution, showing the plants it has found in Colorado.

A SOCIALIST THESIS.

To the Editor of the Gazette:

In an editorial which appeared in the Colorado Springs Gazette June 18 the editor criticised the Socialist platform for its lack of detail and characterizes it as vague, indefinite, impracticable and impossible.

The editor is unreasonable in that he asks the Socialists to do what no political party, religious or philosophical organization ever has done or can do. The only thing that any organization in its declaration of principles to the world does, is to state the naked principles to which it adheres. Leaving the matter of detail to the literature of the subject and to be worked out in their own proper time.

For instance, the Republican party in declaring for a high protective tariff did not state how high nor upon what articles the tariff was to be placed. This was left to the representatives to decide. Jefferson in setting forth the principles of state rights did not specify exactly the rights to be exercised by the state or the nation. He knew, and the editor knows, that the right to discriminate must be left to the people.

We repeat that no organization has ever gone into detail in its declaration of principles. Therefore the criticism falls flat or bears equally upon all, including the political party to which the editor belongs.

As to the platform being vague, indefinite and impracticable.

If the platform is vague and indefinite to the editor he is certainly in no position to criticise it as impracticable. For how can he pass upon the practicability of a thing which he acknowledges conveys no clear or definite meaning to him. Vagueness and indefiniteness may be either objective or subjective. The editor may be more at fault than the Socialist platform. We scarcely expect a person to understand a proposition of which he knows but little, much less do we expect the editor of an old line party press to comprehend Socialism at first sight. When Tennyson was criticised by one of his countrymen for writing poetry that the critic could not understand, he replied: "I furnish poetry for the English people and not brains." The Socialist platform is sufficiently clear and concise for a working out line and that is all any platform can be.

In order to pass upon the practicability of a principle one should know something of the philosophy which supports it. To say a thing is impracticable is to repeat the objection that has ever been raised since the beginning of history. The rotundity of the earth was impracticable, its movements were impracticable. The navigation of the sea, movable type, the printing press, the sewing machine, the overthrow of the feudal system, the establishment of our own republic, together with thousands of other ventures, were declared in their day impracticable. There are ever a lot of moss-back, time-worn curios of a preceding day or age who are always attempting to block the highways of progress with "its impracticable and impossible and it won't work."

We are reminded of the old Kentuckian. A railroad had been completed to the bank of the Kentucky river, the workers had begun to tunnel on the other side, there was no bridge built, the engine stood puffing upon the track, the old gentleman sauntered from his cabin nearby and, after viewing the situation for a short time, said: "It is impracticable gentlemen, it won't work. You cannot expect that engine to come down that track, jump this river and hit that hole every time. It won't work, gentlemen; it won't work."

The practicability or impracticability of a thing arises more largely from its having been tried or from its not having been tried.

But is Socialism practicable? Let us decide why party organizations exist. Certainly governments and political organizations should exist for the purpose of promoting the general welfare and happiness of the people. Taking this as a standard, the present system with all its sorrows, deformities and woe can scarcely be said to be practicable.

The laborer has noticed for some time that though he works constantly he is only a few days or months removed from starvation. He has also noticed that there is a body of men called capitalists that produce nothing yet have plenty of the good things of life. He recognizes the articles in the hands of the capitalist as that part of his production which he did not need in order to exist and to reproduce himself and he calls this portion of his production, the surplus value of his labor power or the profits of the concern. Now the laborer through the Socialist party proposes to retain this surplus value or profits for his own use, and to compel the capitalists of today, along with others, to work for what they enjoy.

In order to secure the profits of a concern it is necessary to secure the ownership. Therefore the Socialist has declared for collective ownership of all material instruments of production. In order that the profits may be as large as possible he asks that the industries be managed by the workers, avoiding the waste of competition. In order that the individual may have an opportunity to develop himself, he maintains that the right to labor shall not be denied and that he be protected in the enjoyment of his proportion of the annual income. Once the laborer is secure in his production, the burdens of the world are equalized and a field for individual development is thrown open which has heretofore been fenced about with poverty. Once the individual has been secured in his product the incentive and ability to produce will increase tenfold. Walker in his "Wages Problem" says that an Englishman, well clothed, well fed and well housed, can produce 32 times as much as a native of India, poorly clothed, fed and housed.

Now the only question involved is the question of ownership. Shall the people collectively own and manage the instruments of production and collectively distribute the income to themselves, or shall individuals or combinations of individuals own and manage the instruments of production and distribute the profits among themselves, giving to the worker only such part as is necessary to enable him to exist and to reproduce himself?

The gentleman complains because the Socialist party does not detail the articles that shall be collectively owned in language as follows:

> "But the Socialist platform declares in favor of the public ownership of all means of transportation and communication.
>
> "This must be taken either to mean what it says or something else.
>
> "If it means what it says, it means that the government should control railways, street cars, stage coaches, steamboats, sailing ships, automobiles for freight or passengers, tramways of all kinds, wagons, wheelbarrows, baby carriages and go-carts.
>
> "All these are means of transportation."

And he might have added legs, as they are certainly the greatest means of transportation that we have. This serves to show the foolishness of his contention. It is understood by all Socialists that a man's income is his to use as he sees fit in the purchase of things to be consumed and enjoyed. Under Socialism one worker might live in a ten-room house, while another might prefer a four-room house, the former working more hours or spending less on other things. But whatever a person has under Socialism will come through his own efforts and not through the labor and efforts of another.

If the editor really wishes to learn concerning the subject of Socialism we cordially invite him to attend our meetings each Sunday evening on the third floor of the El Paso bank building or we will furnish a representative in public debate.

A COLORADO LEGEND.

Amid the green of the prairies, up from
 the sandy sod,
Spring myriad yellow blossoms, now
 lifting their heads in God;
Each vacant lot in the city and outside
 acres untold
Now gleam and glitter and glisten in a
 beautiful cloak of gold.

'Tis said that in bygone ages these
 bright flowers were but weeds,
Plain and ugly and common, useless for
 human needs;
They sprang from the earth by thousands to list to the meadow lark's
 cry,
To hear the voice of the mountain
 stream, and the pine tree's soft,
 weird sigh.

They looked around and marveled at
 this beautiful world of ours—
The blue of the cloudless heavens, the
 colors of many flow'rs;
The wondrous tints on the mountains;
 the glint of the golden sun—
Then looked at their own plain selves
 and soon began weeping, one by
 one.

Then up through the air was wafted
 the saddest, most plaintive cry—
The prayer of the tearful strangers to
 the Maker of Earth on high—
"Have pity, dear God, have pity! See
 how we useless grow!
"Plain and ugly and common—leave us
 not always so!"

Scarce had the zephyr carried this
 prayer to the Maker's throne
When the great light died in heaven
 and only the faint stars shone;
For the mighty Sun in his splendor
 came down from his place on high
To atone for a grievous error and answer the poor weeds' cry.

Then smiling he kissed each tiny face
 till he kissed all their tears away
And sprinkled his gold o'er every one
 till they gleamed like his own
 bright ray;
Then back to his place he hurried—and
 now, when you're out, behold,
How these weeds have changed the
 prairie to the field of the cloth of
 gold!

Edited in the Counting Room.

The new type of American newspaper has no opinions, says Brooke Fisher in the June Atlantic. The counting-room conception of the newspaper is one never offending with opinions to displease anybody, one so conducted, if possible, as to turn no business away from the door. The old-fashioned editor was wont to assume, sometimes very amusingly it is true, the role of Sir Oracle. The journalist of the new development contentedly occupies the position of manufacturer and distributer of saleable print. . . . The American people did not always respect Horace Greeley's enthusiasms, —sometimes hooted at his foibles. The English even took the liberty of putting very distinguished radical editors like Leigh Hunt and John Wilkes into prison. Perhaps Ben Franklin and the great Doctor Samuel Johnson, as editors, were not to be taken seriously always, and they would doubtless have agreed to this themselves. But such journalists of the elder day were dignity itself, any one of them you please a Pericles of distinction, leadership, and power compared with the editor of a modern newspaper with its mainspring in the counting-room. . . . In the old place of editor is the business manager for the capital stock of the enterprise, and its opinions are what the business demands in the view of the only really responsible man, to wit, the business man whose chief function it is to make contracts for advertising, for paper supply, for fifty thousand dollar presses, and for the [illegible] labor force of the establishment mechanical and intellectual, and earn dividends of 20 to 50 per cent.

A habit of thinking generously and kindly of everyone has a marvelous power of transforming one's life. It [illegible] a faculty.—(Success.

ESTIMATES ON FIGURE PUZZLE

Are Pouring Into the Gazette Office---Sums Vary From 2,437 to 13,756---Chances Good That No One Has Yet Named Correct Figure.

All day long yesterday [illegible] stream of people filed into the Gazette office with estimates on the figure puzzle. The work of adding the figures was a longer task than was [illegible] consequently the ones who thought they would be in by six o'clock with their estimates did not arrive until [illegible] o'clock and immediately went home to add up the figures again [illegible] later guess as they were not satisfied with their hasty additions. [illegible]

The estimates vary widely, running from 2,437 to 13,756 with [illegible] even but none has yet estimated the right number.

The man with the microscope was [illegible] but was not sure of his result as one microscope made some of the figures seem different than with the naked eye. Servant Testified That Mr. Gumm Was Insane

Was Mr. Gumm insane? was a question put to a witness in the Gumm case on trial before Judge Cunningham in the civil division of the district court yesterday.

The question was asked of a former servant of the family who had nothing but her opinion on which to base her answer and when she [illegible] in the affirmative the attorneys for the plaintiffs objected on the ground that it would be a purely personal opinion grounded on no technical knowledge of what insanity was.

Judge Cunningham sustained the objection but later when he had taken it under advisement it appeared that in a recent New Hampshire supreme court decision it had been held that non-expert testimony might be introduced, and with that precedent behind him the judge reversed his decision and overruled the objection allowing the answer of the witness to remain on the record.

Many Guests Went to the Cadet Camp

Guest day was certainly well observed this year at Camp Robinson. Everybody who went to beautiful Green Mountain Falls yesterday reports a lively time for themselves and that the High school boys participating in this year's encampment have enjoyed themselves better. Thus far they have had what seems to be made to order weather and everything moves on most serenely and happily.

After luncheon from 2 until 5 p. m. there was an impromptu dance and light refreshments complimentary to the cadets and their visitors through the courtesy of the proprietress of the Lake View terrace. Besides quite a number of people from Pueblo and other places there were present from Colorado Springs: Mrs. W. L. Bartlett, Walter Bryant, Lawrence Lunt, William C. THE TREASURER'S MONTHLY REPORT

Statement of the City Showing the City Finances for the Month of May.

City Treasurer John A. Voorhees has issued a statement of receipts, expenditures, etc., of his office for the month of May. This is the first monthly report of the treasurer's office and in issuing it Treasurer Voorhees is establishing a precedent which should have been established some years ago.

The report shows that on May 31 the city had cash on hand to the amount of $154,021.83. The city redeemed coupons to the amount of $3,155 during the month. The total expenditures for the month aggregated but $7,872.47. The amount of cash taken in during the month was considerably in excess of that paid out. Taxes to the amount of $10,425 were received and $7,000 was received from druggists licenses.

The statement in detail, which gives the citizens an idea of the financial condition of the city at present, is as follows:

B. Gregg and Miss Myra H. Moore were named. Mr. Calvin then introduced the following resolutions. By [illegible] they were unanimously adopted.

Whereas, The parliamentary class of Colorado Springs [illegible] has been [illegible] for the past 10 days most delightfully entertained and most helpfully instructed by Mrs. Emma A. Fox of Detroit, Michigan,

Be it resolved, That we do hereby [illegible] Mrs. Fox [illegible]

Be it further resolved, That we take great pleasure in recommending Mrs. Fox to any class, club or association that may desire instruction in parliamentary usage.

Be it further resolved, That a copy of these resolutions be furnished Mrs. Fox and that she be authorized to use them in any way she may desire.

Mrs. J. B. Gregg, president.

Miss Myra H. Moore, secy.

Mrs. Robert Kerr, president of the Woman's club, moved that a vote of thanks be extended to Rev. Mr. Calvin for the use of the Christian church as a place of meeting. Carried.

These lessons have been very popular as has been demonstrated by the excellent attendance. The class numbered [illegible] and the average attendance at least 60. In parting from Mrs. Fox the hope was often expressed that she may return before very long and give another course of instruction in this study, which should be thoroughly mastered by every person who intends holding office or belonging to any organization.

C. & S. Going After Tourist Business

Another move has been made on the railroad checker board which will probably prove another winner for the tourist business to Colorado. It is the inauguration of a new train service between Memphis and Denver, the Choctaw, Oklahoma and Gulf and the Colorado and Southern railroads joining hands in putting on a through train which will be known as the Denver Flyer. June 29 is set as the date of the first run.

At Amarillo, Texas, the two roads are being connected, the junction being but the matter of a few days work. In the southeast the tourist business has been going almost entirely to the lake resorts, Canada and eastern watering places and an attempt will be made to divert this business to Colorado as the Texas business has been changed. The advertising campaign will be entered upon in a short time by General Passenger Agent T. E. Fisher of the Colorado and Southern who will take a trip over the system at an early date.

The new train will make the through trip from Memphis to Denver, a distance of 1,235 miles, in 48 hours, which means another fast train which will be at the service of Colorado Springs people in addition to the many which now pass through this city. Besides being fast the train will have an equipment which it is the intention to make as fine as the best. The time of leaving this city will probably be about midnight.

[illegible] CARPENTERS WERE PLEASED WITH GAME

Colorado Springs, June 19, 1902.

Through the columns of the Gazette and in behalf of the members of the Union Printers home I desire to return my warmest thanks to Manager William A. Rourke of the Omaha baseball team and to Manager Thomas P. Burns of the Colorado Springs baseball team for their very generous invitation to the members of the home to attend the exhibition on yesterday free of charge including special courtesies while occupying seats in the grand stand. I assure these gentlemen that their kindness and forethought in furnishing the members of the home with so admirable an exhibition of the great national sport was appreciated in the fullest measure. It is their earnest desire and wish that both these able exponents of the gentleman's game may meet with all the success to which their well-merited abilities entitle them.

PERSONAL MENTION

Mr. and Mrs. C. H. Dudley leave tonight over the Rock Island. They are called east on account of the death of Mrs. Dudley's father.

John M. Connolly, sporting editor of the Denver News, accompanied by Joe Kelly, the old time ball player who has since been Ward & Vokes' leading comedian, being the man who created the "dope fiend," was a visitor in the city and at the ball game yesterday.

Mr. P. J. Robinson, the well known druggist, is confined to his home at the corner of Nevada and Platte avenues by a serious complication of heart and lung troubles. His friends are not led to hold much hope for his recovery.

Among the graduates at the State School of Mines at Golden yesterday was Walter L. Ehrich, eldest son of Mr. and Mrs. L. R. Ehrich of this city. Walter Ehrich graduated from Cutler academy in this city and then took his bachelor's degree from Yale after which he went to the State School of Mines and yesterday took an engineer's degree.

SPORTS

AND SPORTING NOTES

THREE STRAIGHT FROM NEBRASKA

This Was What the Millionaires Made It Yesterday.

HAD THEIR BATTING EYE

Hit the Ball When Hits Counted and Although the Visitors Tied the Score Three Times They Couldn't Win.

Yesterday's ball game at Boulevard park made it a series straight from Omaha, the team that held the lead throughout the early part of the season.

Rourke and his men were on deck and did the best they could, but their work was not quite good enough.

The locals and the visitors quit about even in most departments of the game but there was one in which the visitors were outclassed and it is the one department wherein the Millionaires have fallen down when the sound of their alighting on the hard ground has been heard. The Millionaires as a team yesterday hit the ball at critical times and their errors did not come at times when they were fatal. Drennan and Hemphill batted better than they have at any previous time this season and the game played by the team as a whole, largely due to the improvement in batting, was 50 per cent better than the game the boys were playing at the time of the double Denver series.

There was considerable roaring among the fans over the work of Umpire Criss, a large part of which was not deserved. With Carter at the bat in the sixth inning there was a decision that was very decidedly poor. The man went to first base on what the umpire termed four balls, the third of which was as deliberate and intentional an attempt at a bunt as the batsman knew how to make. He didn't get home however, being put out between third and home by a play that came as near as anything did to being a feature. After being presented with first base not by Newmeyer but by Criss, Carter went to third on Genins' single. With the ball in Newmeyer's hands Genins took a big lead off first attempting to induce the south paw to throw the ball to Everitt in which event Carter might sneak home. It looked good to Newmeyer and he threw to Everitt. Genins started for second and the ball went to Hollingsworth who had come up across second. Carter started off third. Holly made a motion to throw home and Carter stopped as also did Genins, the latter starting back for first. Holly threw to Everitt who threw to Granville as Carter tried to get back to third. He was not quick enough however and Baerwald's throw to second a moment later cut off Genins' attempted steal and retired the side. Drennan made two very timely hits during the game.

After Omaha had three times tied the score and it stood seven to seven in the eighth, Fleming flew out to Genins and Granville went to first on Hickey's error. Hemphill then came up and sent a ripping three bagger down to right field scoring Granville for the run which again gave the locals the lead. Everitt came up and knocked a long fly to Genins making the second out. Hemphill started for home and by one of the most beautiful slides that has yet been made on Boulevard park diamond brought in the ninth and last run of the game, Drennan going out immediately from Dolan to Calhoun.

Omaha did nothing in the ninth and the locals didn't bat. The score:

COLORADO SPRINGS BALL TEAM STARTS AROUND THE CIRCUIT.

First Games Will Be Played With Kansas City and Start Tomorrow—Owner Burns Takes Over Management of Team From Now On.

The Colorado Springs baseball team leaves this afternoon for Kansas City where it will start the circuit with four games with Kansas City, the team that holds first place in the league.

Peoria has taken three straight games from Kansas City in the past three days and the fans hope that Kansas City has struck the toboggan. Bert Jones is due to pitch the first game and then it should be McNeeley and Gaston with Newmeyer to close the series. After Kansas City, the locals meet the strong St. Joe aggregation which, however, has met sad defeat at the hands of Duffy's Angels from Milwaukee. From St. Joe the Millionaires go to Peoria, then to Milwaukee, then to Des Moines, then to Omaha and then come home.

Magnate Thomas F. Burns has decided to accompany the team on its trip.

DENVER PLAYED BAD BALL

Didn't Have the Goods for Some Unknown Reason—Denver Fans Were Sore.

Special to the Gazette.

Denver, June 19.—Just before the baseball game started yesterday afternoon the Prohibitionists were seen shaking a handful of something out of a saltcellar looking affair into their left hands and eating it. Today the same thing was done again and your correspondent strolled down by their club house to see what they were taking. The saltcellar was empty but on it was a label marked ginger. The laws of the state of Iowa are not averse to ginger and the boys adopted that. The adoption proved good for they succeeded in giving Denver two as pretty whippings as ever were given any team on the home grounds. The losing of today's game made the local support [illegible] weary and Kansas City should [illegible] a memorial to Des Moines for keeping Denver out of first place. With Kansas City losing Denver could have [illegible] first honors had her team played good ball.

A [illegible] accounted Denver's two recent defeats as follows: "Well, you see it is just this way, the boys leave tonight for a long trip and they have been compelled to spend all the extra time both night and day [illegible] the girls they are leaving behind. [illegible] Hence they are sleepy, sluggish and knocked out all around." This solution may not be correct [illegible] the best [illegible] certainly not up to the usual standard of ball playing. [illegible] the bleachers themselves [illegible] to blame for today's loss. [illegible] baseball fan in town but that knows that Eyler [illegible] followed the [illegible] team is losing [illegible] instead of encouraging [illegible] Moines [illegible] bleachers began [illegible] Denver boys in general [illegible] give their support to the visitors. In the last three innings a stranger would have supposed that the home boys were the visitors. Such a spirit [illegible] team was never witnessed before on the grounds [illegible] the total unrest [illegible] of a few of the Denver fans.

The visitors started [illegible] from the first. They put Wilkins [illegible] for four and a half innings and then changed to Morrison. Wilkins was pitching a magnificent game but was becoming a little tired and the change was made. The locals [illegible] could do nothing with Morrison and they were retired in practically one, two, three order. The visitors had Eyler going south a good part of the game and the errors by his supporters together with the bench rooters kept him guessing the rest of the time. O'Leary, Backof, Hansen and Morris [illegible] put up [illegible] of the speediest games of ball ever seen by the Denverites. Such playing as Des Moines did today and yesterday if continued should put them near the top rounds before the season is over. The team leaves tonight and will return July 1.

In speaking of the present series and the mob which surrounded him last night Umpire Moran said: "Denver will find that she will lose in the long run through her treatment of visiting teams. It is all right to root and assist the local team as much as possible in a decent way but to throw cushions and pop bottles and to be otherwise nasty all the time gets every team in the league down on one and the Denver team will get the same treatment while away. The fault is not so much with the local fans as it is with the local management. Mr. Packard is largely to blame. He makes a practice of paying the fines imposed on his players thus taking away nearly all the protection an umpire has to rely upon. When a player knows he can say what he pleases and some one else will pay his fine it is simply an invitation for him to kick and be ungentlemanly. The bleachers notice the players continued kicking and of course side in and extend their disapproval not only to the umpire, but the visiting team. As umpires our only protection is to fine the players and then put them out of the game. This is why so many have been sent to their seats. Mr. Packard will find that if he continues to pay their fines it will not be very long until the bench will hold a number of his players every game. The umpire will simply fine and send every man to the bench that interferes. If Mr. Packard will let the men pay their own fines he will keep more men in the game and his mob will stop their insulting kicking."

CHANGES IN THE BALL MANAGEMENT

Some changes in the business department of the baseball team have taken place. Both Mr. Nye and Mr. Rogers, who have been connected with the management since early spring are out. Mr. Burns will attend to his own business affairs and will probably go east with the team this afternoon.

Mr. Rogers retired from any connection with the team several days ago because there was not business enough to justify keeping him longer. Mr. Nye states that he has not found baseball as attractive as he had hoped and last evening tendered his resignation to Mr. Burns. He will probably take a well earned rest during the remainder of the summer before the Opera house season opens.

PLANS FOR GOLF PLAY FOR THE JEWETT CUP

The fourth round of play in the Jewett cup competition will be held at the Town and Gown Golf club on Saturday, June 21. Entries must be made by 12 o'clock of that day.

On the same day a match game will be played between the Bankers and Brokers, captained by Mr. C. P. Shove and the Merchants and Manufacturers captained by Mr. Walter Scott. All members of the club desiring to play will kindly send in their names as soon as possible to one of the captains. Competitors in the match contest can also enter and play at the same time for the Jewett cup. An entrance fee of 50 cents for each competitor will be charged in the match contest, the same to be paid by the losing side and devoted to the purchase of some article for the club house.

ENTRIES FOR THE AMERICAN DERBY

By Associated Press.

Chicago, June 19.—The fifteenth American derby, which will be run at Washington Park club track Saturday afternoon appears to be the east against the west. The east furnishes the three betting choices in Heno, Pentecost and Arsenal, and it is only on the theory that western colts may be in better condition as a result of avoiding the trip across the country that westerners figure a good chance for a colt from this section to win. Such a theory has back of it the history of other derbies in which no eastern horse has ever been successful with the exception of Strathmore, in 1891, who was on the ground weeks before the derby was run.

Although the local tracks have been muddy and heavy nearly all this spring, there is now a fairly good prospect of a good track and day for the derby.

The horses likely to start with their weights and jockeys follow:

4 to 1—Arsenal	122	O'Connor.
8 to 1—Belles Commoner	122	Knight
3 to 1—Heno	122	Bullman.
10 to 1—Hermis	122	McCue
20 to 1—Lord Quex	125	J. Woods.
15 to 1—Lucian Appleby	122	Birkenruth
12 to 1—Otis	127	Singleton.
4 to 1—Pentecost	122	Redfern
10 to 1—Wyeth	122	Lyne.

There is a possibility that the following will start, but they are doubtful:

20 to 1—Abe Frank	125	Coburn.
20 to 1—Aladdin	122	Helgerson.
10 to 1—McChesney	122	Caywood.
25 to 1—Prowl	[illegible]	Davisson.
30 to 1—South Trimble	122	....

G. W. MacNEILL'S BROTHER PROMOTED TO CAPTAIN

A letter was received in this city yesterday from G. W. MacNeill, brother of D. G. MacNeill of this city and who was formerly a resident of Colorado Springs himself.

Mr. MacNeill went to the Boer war and enlisted in the Yeomanry as a private. His career in the war was marked with rapid promotions for bravery and probably establishes a record for promotions in the British army. Going in as a private he is now a captain and is an officer on the staff of the administrator of what is known as Area No. 2 of the Transvaal. The area is a tract of land 70 miles by 100 miles in size and is one of the most important sections of the Transvaal. Captain MacNeill is now stationed at King Williams Town in the Transvaal.

Great Rock Island will sell tickets to Boston and return on June 19 to 13 for one fare for the round trip. Limit June 21. May be extended to July 21. For further particulars call on or address G. W. Andrews, No. [illegible] Pikes Peak avenue.

MANAGER REED OF WESTERN UNION TRANSFERRED TO PHILADELPHIA.

Started at Chicago and Climbed the Ladder of Success — Rewarded for Ability and Faithfulness

By Associated Press.

Denver, Colo., June 19.—The announcement was made tonight that J. W. Reed, manager of the Western Union office at Colorado Springs and T. A. McCammon, chief operator at Denver, have been transferred to Philadelphia to take the positions of manager and chief operator of the office in that city. Both are men of the highest ability and their promotion is at the instance of Superintendent Brooks who [illegible] going to the eastern city [illegible] has been gradually surrounding himself with old and [illegible] lieutenants from the west.

J. W. Reed, who has received the appointment mentioned above, is well known and extremely popular in this city where he has been manager for the company for about four years and his many friends while proud of his promotion to the important position in Philadelphia are sorry to see him leave Colorado Springs.

Mr. Reed came here from Helena, Mont., before which he was located in Durango and previous to that in Montana while his first connection with the company was in Chicago. He has grown up in the service of the Western Union and has gradually worked up from the bottom, being rewarded according to his splendid ability and faithfulness until now he is to be transferred to one of the most important offices in the country.

He appointee could not be found last night to make any statement as to the appointment but it is understood that there will be no doubt as to his acceptance of it.

FOR GOVERNOR OF NEBRASKA

The Republicans Nominated John H. Mickey of Osceola--The Chief Features of the Convention.

By Associated Press.

Lincoln, Neb., June 18.—The Republican state convention nominated the following ticket:

Governor—John H. Mickey, of Osceola.

Lieutenant governor—E. G. McGilton, Omaha.

Secretary of state—George W. Marsh, Falls City.

Treasurer—Peter Mortenson, Ord.

Auditor—Charles Weston, Rushville.

Attorney-general—F. N. Prout, Beatrice.

Commissioner of public lands and buildings—G. D. Follmer, Nelson.

Superintendent of schools — W. F. Fowler.

The nominees, except governor, lieutenant governor and treasurer, are the present state officers, and the selections were made by acclamation.

The feature of the convention was the unanimity and enthusiasm with which the national administration was indorsed.

A communication from Senators Millard and Dietrich explaining their attitude on the Cuban reciprocity bill was on motion placed on file without action.

In calling the convention to order Temporary Chairman Norris Brown made a brief address, as follows:

"It is humiliating to the good people of Nebraska to remember now that in 1896 they published to the world their temporary incapacity for self-government and yet there was some excuse for that mistake. We were in great pain that year. We had been suffering since 1893 the joys of unparalleled Democratic prosperity, of the free trade brand. The happiness which that remedial industry brought and was vouched for at the time by the once peerless leader was too painful to be joyful. So it happened that Nebraska's vote went to a cause that was lost, to a ticket that was defeated, and to a party that is now stranded on the rocks of freedom and the sands of the re-organization. And this reminds me that the opposition is now talking about re-organization. Re-organize what? Is there anything left to re-organize? Towne has quit, Peffer has escaped, Stewart has reformed, Henry Watterson is already and always well organized, Tammany Hall has moved its greatest feature to England and his successor has resigned. 'Hill is a Democrat,' Chairman Jones is a trust-plutocrat, Allen is an editor, Grover Cleveland has gone fishing and Bryan lives in a barn. Now what is there left to re-organize?

"I believe it to be the sublime duty for Nebraska this year to vote out of political existence every candidate and party and every platform that breathes sympathy for the fighting foes of the nation's flag. Let us stand at the back of McKinley's successor, the worthy, aggressive, the sensible, the plain spoken and the courageous president, Theodore Roosevelt. The great work begun by his predecessor must be completed. The country demands it. The present financial and industrial systems are established policies, but they must be preserved and made permanent.

"Cuba is free. Her freedom the fight of America, but she must be encouraged and protected, and if she is willing, annexed. The Philippine islands are ours, they must remain ours and their people given those blessings of education and liberty that fall from the folds of the American flag. The far eastern belongings of this country must be civilized if it takes the nation and the Republican party the rest of the century to do it.

"Labor is employed as never before in its history. It must be kept employed. The nation's commerce exceeds by millions all former records. It must be expanded still more, even if it result in the building of both canals instead of one. A shorter water route to Asia and Europe is indispensable to the American merchant, the future master of the trade of the world. The interests of labor and capital must have the equal protection of the law. Labor has the right to organize and combine for peaceful and lawful purposes. Capital has the right to co-operate and congregate so long as its purpose is peaceful and lawful. But neither has any right to trample on the rights of the public by the use of violence or by limiting production or by controlling the prices of the necessaries of life or by stifling competition. Such are the principles of the Republican party and such is the work at hand for it to do.

"Let us keep Nebraska in line from one end of the state to the other for Republicanism, for McKinleyism and for Theodore Roosevelt."

The platform says:

"We heartily indorse the administration of President Roosevelt. We especially commend the justice and wisdom of his reciprocity policy with Cuba, as embodied in his message to congress.

"We commend the bold stand that he has taken against the formation or perpetuation of unlawful combinations in restraint of trade.

"We are heartily in sympathy with the president's policy in favor of the national irrigation law, and we commend our senators and representatives for their efforts in securing the passage of same."

Other planks of the platform, "Congratulate the people on the present prosperity under a Republican administration," reaffirm the national platform of 1900, deplore the death of President McKinley and congratulate the people of this great republic upon possessing a vice president sufficiently courageous to follow out the wise policies inaugurated by his illustrious predecessor.

A special plank defends the army from criticisms.

TO CONSIDER STRIKE OF SOFT COAL MINERS

By Associated Press.

Indianapolis, Ind., June 18.—An official call for a national convention of the United Mine Workers of America was issued this afternoon from the national headquarters in this city by Secretary-Treasurer Wilson. The convention will meet here July 27, to determine whether the soft coal miners of the country shall go out on strike to assist the striking anthracite miners of Pennsylvania.

The basis for the apportionment of delegates to the convention is one for every hundred members of the local unions or fraction over 50. This will give the convention a voting strength of from 1,700 to 1,800. A bare majority can declare a strike. The anthracite regions have 474 votes. Virginia and Michigan which joined in the request for the call have 52, making 700 votes from these five districts which united to call the convention. As stated at headquarters conditions are not satisfactory to miners in Missouri, Kansas, Arkansas and Indian Territory and it is believed the delegates from these sections will vote for a strike.

MORRISON JURYMAN WAS ROBBED BY ASSOCIATE

By Associated Press.

Eldorado, Kan., June 18.—Dell Baker, one of the Morrison case jurymen, was arrested today, charged with robbing Walter Warner, another juryman, of $85. The two men slept together last night and this morning Warner missed the money. He jerked Baker's hat off, and one of the coins dropped out.

The selection of the jury has not been finished. There remain three challenges yet.

FINDINGS IN CASE OF OFFICERS OF THE CHICAGO

By Associated Press.

London, June 18.—The text of the findings of the court of inquiry in the case of the United States naval officers imprisoned at Venice in the latter part of April, throws a new and unpleasant light on the affair. It now appears that the United States consul at Venice, Henry A. Johnson, and the lawyer provided by him for the defense, urged the officers to plead that they were violently drunk. This they declined to do.

Rear Admiral A. S. Crowninshield, commanding the European squadron, in reviewing the findings of the court, severely censures Captain James H. Dayton, commander of the Chicago, for not personally attending to the defense of the officers and comments on the "revolting indignities" suffered by the officers while confined at Venice. Under the circumstances Admiral Crowninshield holds "a court martial would be a farce."

TRAIN DERAILED

By Associated Press.

Kansas City, June 18.—Chicago & Alton local passenger train No. 14, which left Kansas City at 8 a. m., was derailed two miles west of Mexico, Mo., about 2 o'clock this afternoon while running on schedule time. The engine and three cars were derailed. Engineer Keller of Slater was thrown out of the engine and killed. Thirteen passengers were slightly injured, but all continued the trip to their destination. The cause of derailment is yet unknown. The track was repaired and trains passing over it within three hours after the accident occurred.

KING EDWARD MUST CONTINUE TO REST

By Associated Press.

London, June 18.—It was officially announced today that, in view of the strain of the approaching coronation, King Edward's physicians have decided that his majesty shall forego all public engagements for the next few days.

ALLEGED HORSE THIEVES TAKEN TO CRIPPLE CREEK

Special to the Gazette.

Florence, June 18.—James Brodon, Marie Milton and William Popst, the alleged horse thieves from Cripple Creek, who were placed in jail here yesterday, were taken back to Cripple Creek this morning for trial by Sheriff Robertson of Teller county, who arrived this morning. Robertson identified the trio as the persons wanted. He was accompanied here by Jack Popst, the father of the boy, and S. H. Tryon of Victor, the owner of the wagon and harness, who identified them as the ones which were taken from his barn last Friday. Bordon and the Milton woman will be tried in Cripple Creek tomorrow. The sheriff had a warrant charging them with horse stealing. Sheriff Robertson is of the opinion that Bordon persuaded the boy to leave the district. The strange developments since the boy left Cripple Creek are as profound a mystery as they were yesterday, and the facts remain to be brought out in the court tomorrow.

ACCIDENT AT GUTHRIE.

By Associated Press.

Guthrie, O. T., June 17.—Thirty-one passengers were injured today by a gasoline generator explosion in the New York Hardware company's store.

At 8:30 o'clock fire broke out in the rear of the store, demanding the attention of two fire companies. While the firemen were fighting the flames, an immense crowd gathered in the street before the plate glass front of the building. The fire ignited gasoline which exploded, blowing out of the front of the store into the crowd. Heavy plate glass went into the air, making serious wounds wherever it struck persons in falling.

FIRE IN CREEDE

By Associated Press.

Creede, June 18.—The second terrible fire in the history of Creede occurred this morning and as a result fully $200,000 worth of property has been burned, two lives are believed to have been lost and many persons were injured. The fire occurred in what is known as Upper Creede and that part of the town is in ruins, making 60 families homeless. The names of the missing are William Stewart and Fritz Zint.

BELLES COMMONER WON DERBY TRIAL SPECIAL

By Associated Press.

Chicago, June 18.—J. B. Respess's Belles Commoner, an outside bettor on the American derby, which will be run here Saturday, won the derby trial special today at Harlem. The colt ran a marvelous race covering the mile and an eighth in 1:53 2-5 and won in a gallop by three lengths. John A. Drake's Wyeth in a desperate drive beat out Lucien Appleby by a nose. Prowl, who was fourth, was beaten by ten lengths. Crusades, second choice in the American derby, quit after he had run a mile.

The race came near causing the death of Jockey Winkfield. He had the mount on Schildreth's McChesney, who coupled with Lucien Appleby was held favorite at 1 to 2. At the half mile post McChesney fell, throwing Winkfield against the rail. Winkfield's right leg was injured badly and his collar bone was broken. McChesney slid about 30 feet, but was seemingly uninjured except for a cut on his nose. He limped slightly on arising, but the limp disappeared in a few strides. The accident will prevent McChesney starting in the American derby and Winkfield will be unable to ride any more this season. Summary:

First race, four and a half furlongs—Dick Welles, won, Pluck, second, American third. Time, 53 4-5.

Second race, six furlongs—Bard Burns, won; Ultrapone, second, Lady Idris third. Time, 1:14 2-5.

Third race, the derby special, mile and an eighth—Belles Commoner, 112 (Knight), 7 to 1, won; Wyeth, 112 (Lyne), 12 to 1, second; Lucien Appleby, 118 (Coburn), 7 to 1, third. Time, 1:53 2-5. Prowl, Gen-water, Crusades also ran. McChesney fell. McChesney and Appleby coupled as Schildreth's entry.

Fourth race, mile and a quarter, over five hurdles, handicap—Corillo won, Dissenter second, Coley third. Time, 2:13 1-5.

Fifth race, five furlongs—Early, won, Goodman second, Our Bessie, third. Time, 1:01 2-5.

Sixth race, mile, selling—Federal won; La Goleta second, Maude Gonne, third. Time, 1:40 2-5.

Seventh race, mile and seventy yards—Emathion won, Ernest Parham, second, Henry of Franstamar, third. Time, 1:46 2-5.

DESTRUCTIVE HAIL STORM NEAR FOWLER

(Special Correspondence.)

Fowler, June 17.—A destructive hailstorm struck this section of the country yesterday afternoon. The storm came from the north and the edge of it passed over the town, while the full force of the hail fell on the farms lying east and south of Fowler.

Mr. S. S. Roby is one of the heaviest losers. His entire crop of farm products and fruit was destroyed. He estimates that he lost 100 bushels of peaches and at least 100 gallons of cherries, besides large quantities of grapes, apricots, apples, etc. Mr. Willet had 100 acres of beans destroyed. They were just nicely started and the tender stalks were beaten to pieces. Melons, sugar beets, corn, alfalfa and vegetables all suffered. A few farmers were secured by hail insurance. The storm came at 4 o'clock and lasted about 10 minutes. It was accompanied by a heavy fall of rain.

WOODMEN TO HAVE LOG-ROLLING [illegible]

One of the big events on the summer calendar for Colorado Springs is the annual log-rolling contest of the Woodmen of the World, which will be held this year in this city on July 30, 31 and August 1.

Great preparations are making for the gathering, and an interesting program has been prepared for the three days. One feature of the affair will be a grand fire works exhibit, for which $500 has been appropriated. There will be outdoor sports at Roswell track and a big street parade will also be a feature. The local Woodmen will spend $1,000 in entertaining the visitors and a big time is assured.

TERRY McGOVERN INJURED.

By Associated Press.

New York, June 18.—Terry McGovern, the pugilist, while playing baseball at College Point, L. I., today, was knocked down in a collision with a base runner and had his collar bone broken. McGovern was taken to his home in South Brooklyn, where the attending physician said he would be laid up for several weeks.

McGovern is matched to fight Young Corbett in September for the feather weight championship of the world.

POLITICAL SPEECHES MADE IN THE HOUSE

By Associated Press.

Washington, June 18.—The near approach of the end of the present session of congress was signalized by a general political speech by Mr. Richardson of Tennessee, the leader of the minority. Taking advantage of the latitude followed during general debate on the deficiency appropriation bill, he delivered a set speech for an hour and a half. He arraigned the Republican party for its failure to keep its platform promises, dwelling especially on the question of trusts and the necessity for tariff reduction.

Mr. Shallenberger, Democrat, of Nebraska, also made a political speech, condemning the administration for removing Miss Taylor, a clerk in the war department, who criticised its Philippine policy, and for justifying General Wood's expenditures for the promotion of reciprocity legislation.

Mr. Cannon, chairman of the appropriation committee, in a brief reply to both speeches, said he was ready to go to the country on the record of the Republican party. He caused much merriment on his side of the house by describing the Republican party as pulling the wagon, while the Democrats stood off and found fault.

Mr. Bartlett, Democrat, of Georgia, offered an amendment to the deficiency bill to reimburse the Cuban revenues for the salary allowed by Secretary Root to Governor-General Wood out of the island revenues.

In the course of some remarks early in the session, Mr. Cannon declared that if he could have his way congress would adjourn sine die before July 4. The general deficiency appropriation bill, the last of the supply bills, was passed.

A night session was held, at which the house considered bills reported from the committee on Indian affairs.

Mr. Cannon's remarks were as follows:

"I listened with care for almost an hour and a half," said Mr. Cannon, "to the remarks of the gentleman from Tennessee, the leader on the other side of the house, and after listening to him I am here to confess that on this side of the house, and I rather suspect on that side of the house, the millenium has not yet come. We are not perfect and we don't claim to be. We pull the wagon and we do the work, and you find the fault. You have been at that now for over a generation, and still we have pulled along. It does you good and I don't think it hurts us. You had full power under Cleveland. You came in power partially from time to time, but then you had full power. It is recent—from 1893 to 1897. Don't you wish you could blot out the recollection of the manner in which you exercised it? And for gall and check with the recent performance, now when we are doing the best we can, meeting every obligation, the country prospering, passed through the war with honor, passed through the war with justice, solving the questions that grew out of that war and solving with courage, notwithstanding criticism of opposition, gentlemen, of your party, still you scold.

"My friend from Nebraska (Mr. Shallenberger), who has just talked, is young and hopeful. Bye and bye, when, politically speaking, he has tarried at Jericho until his beard has grown, he will not be so optimistic.

"Now, let us move on. In a few days let us adjourn this congress. We have nothing to apologize for. Peace and prosperity abound with us here and everywhere through our borders as never before in the history of the country. Print your speeches, circulate them, go on the stump. I will take my chance that when the silent ballot drops in November next you will march up to the same old defeat."

[illegible] TO PROTECT PRISONER FROM MOB

Indianapolis, Ind., June 18.—The sheriff has wired Governor Durbin from Vincennes, asking for troops to protect William Edison from a mob which now surrounds the jail at that place. Edison is charged with assaulting a 4-year-old girl.

The governor has replied to the request for military by ordering the sheriff to swear in deputies—1,000 if necessary—and to protect the prisoner at all hazards. The mob that surrounds the jail numbers 400 or 700, also seems to lack a leader.

FROM COLLEGE TO THE BUSY WORLD

(Continued from Page 1.)

the others will leave today.

Professor Parsons will spend most of the summer in Colorado Springs, and will probably have a daily office hour for the accommodation of those who want to talk college business. He will announce his plans later.

COLLEGE PERSONALS

Miss Grace Thompson leaves for Pueblo today.

W. L. Hogg goes to his home in Ouray for the summer.

W. H. Warner left last night for his home in Hartford, Conn.

Miss Fanny Raynolds leaves this morning for her home in Canon City.

Mr. E. L. Kiteley leaves for his home in Longmont, where he will spend the summer.

Miss Edith Albert of the senior class leaves for Pueblo to spend the summer at home.

F. Lee Holden goes to Denver today and will engage in business in that city this summer.

Tracy R. Love, president of the graduating class, goes to his home in Denver this morning.

Miss Kate Kiteley and her sister, Mrs. Letford, will return to their homes in Longmont this morning.

Miss Marian Williams goes to Cheyenne, Wyo., this morning and will spend the summer at her home there.

Marshall Jonson, the football player, leaves for Cripple Creek today to work in the mines during the summer.

Rufus Mead leaves this morning for Highland Lake, where he will spend the summer. He will enter Yale next fall.

Miss Ethelwyn Fezer of the senior class and Miss Ruth Brush, who came down for commencement, return to Greeley today.

C. W. Weiser goes to Grand Junction tonight. He will work there this summer and will enter Leland Stanford law school next fall.

There will be a general exodus of college students today. Most of the students will leave for their homes this morning while others will go on the afternoon trains.

Miss Wilma Turk will return to her home in Fort Collins this afternoon. Her father and mother, Mr. and Mrs. M. A. Turk, who came down for commencement, will return with her.

Dr. and Mrs. H. P. Packard will return to Gillett today. Dr. Packard has established a good practice in that section of the gold camp. He and his wife have spent the past week renewing old acquaintances at the college.

Alumni Function at College Gymnasium

Yesterday was alumni day at the college and the old graduates had a prominent part in the day's program. The business meeting of the alumni association was held at 9 o'clock yesterday morning in the study room of Ticknor hall.

President Willis R. Armstrong was in the chair and there was a good representation of the different classes at the meeting. After the reading of reports from Miss Della Gandy, the secretary, and Treasurer A. Downey, the election of officers for the ensuing year was taken up and resulted as follows:

President, H. L. Shantz, '01, Colorado Springs.

First vice president, Miss Matilda McAllister, '99, Colorado Springs.

Second vice president, Miss Honora DeBusk, '99, Hoehne, Colo.

Third vice president, Mrs. Leona Kiteley Letford, '00, Longmont.

Fourth vice president, Dr. H. P. Packard, '98, Gillett, Colo.

Fifth vice president, G. H. De La Vergne, '91, California.

Secretary, Miss Pearl Cooper, '96, Colorado Springs.

Treasurer, Roy M. McClintock, '00, Colorado Springs.

E. H. Carrington, ex '00, was elected a member of the executive board to fill the vacancy caused by the expiration of the term of Mr. W. L. Wilder. Mr. F. R. Hastings and Dr. Clarence R. Arnold are the other members of the board.

The arrangements for a big reunion of all graduates of the college next commencement were left in the hands of the executive committee.

The annual alumni luncheon was served in the gymnasium yesterday afternoon. The members of the class of 1902 were the guests of the association at this luncheon, which was probably the most enthusiastic gathering of college graduates ever held in connection with a Colorado college commencement. Over 100 old college students were present, there being an unusually large number of alumni from out of town points. Among these latter were Dr. and Mrs. Packard of Gillett, Miss Edith Babb of Greeley, Miss Honora DeBusk of Hoehne, Miss Stella Chambers of Denver, Mrs. Leona Kiteley Letford of Longmont, Miss Mary Wheeler of Denver, Miss Eva Carpenter of Pueblo, Miss Clyda Moses of Pueblo, Elmore Floyd of Hoehne, besides a number of Colorado Springs "grads" who have been away from the city and returned especially for commencement week.

Willis R. Armstrong, '99, president of the association, presided and sat at the west end of the gymnasium with Acting President Parsons, Dr. James B. Gregg of the trustees, and Dr. Patton, the guest of the day, on either side of him. There were two long tables running the full length of the "gym," with a shorter table running across the west end. The "gym" was decorated in college colors and with green foliage. The guests were seated according to classes, and several of the classes had decorated their especial parts of the tables. The class of 1902 had red roses on their table. The class of 1900 had red and white paper ribbons running across the table with a vase full of red and white carnations in the center and a red and white banner suspended over the table. This class had the largest representation except the class of 1902. Thirteen "Naughty Naughters" were present at the gathering. The class of '99 came second with nine representatives out of a total membership of 14. Some of the earlier classes had but two or three representatives each.

Mueth served the feast in a style that gave satisfaction. It was a bounteous repast. The program of speeches was interspersed between the courses with class songs and yells and college yells kept the enthusiasm at a high pitch. Professor Parsons was compelled to sing a comic college song which was a great favorite at the college a few years ago and Dr. Patton also sang a comic song that completely captivated the party.

President Armstrong was bright and spicy in his introductions and all the speakers were in a happy mood so that the rather long list of speeches did not make the program tiresome. The college orchestra rendered two well executed selections and accompanied the party in the singing of "Colorado Hail" and "The Ivy Song." It was after 4 o'clock when the party broke up and each one present declared that he or she would make every effort to attend the big reunion next year. The program of speeches and music was as follows:

President Willis R. Armstrong, toastmaster.

"Colorado Hail"—The College Orchestra and everybody else.

Welcome—Pres. Willis R. Armstrong.

On Behalf of the Faculty—Acting President Edward S. Parsons.

'01—Frederic B. Haines.

Music—Colorado College Orchestra.

"Our Guest"—Rev. Cornelius H. Patton, D. D., of St. Louis, Mo.

'96—Pearl Cooper.

'97—Edith Babb.

'98—Harry P. Packard.

'99—Honora DeBusk.

More music—Colorado College Orchestra.

What the Trustees Think—Rev. James B. Gregg, D. D.

'00—Elmore Floyd.

'01—Marie McClintock.

'02—Tracy R. Love.

"Ivy Song"—Everybody.

A motion was made and carried that the alumni association cable greetings to President Slocum. Acting President Parsons sent the message last night.

All present enrolled themselves in the "Alumni Register," which will be kept at every reunion from now on.

[illegible] PRIZE FIGHT IN DENVER

Special to the Gazette.

Denver, June 18.—The fire and police board this morning instructed Chief of Police Armstrong to prohibit the Corbett-Sullivan prize fight, or any other fight that an attempt is made to pull off in the Coliseum hall. It is thought this will settle the prize fighting in Denver.

TENNESSEE REPUBLICANS

By Associated Press.

Nashville, Tenn., June 18.—The state Republican convention nominated the following ticket:

Governor—H. T. Campbell, Carter.

Railroad Commissioner—J. J. Elliott, Shelby.

Supreme Justices—T. A. Wright, Poanesll; S. Parks, Bradley; E. C. Caldwell, Bedford; R. W. Starnes, Lawrence; C. H. Trimble, Shelby.

Judges of Court of Chancery—Appeals—George T. McCall, McCarroll; George S. Ramsay, Coffee; X. C. Hicks, Clinton.

The platform favors legal restraint of monopolies and trusts and reaffirms fealty to the Philadelphia platform of 1900.

BOILERMAKERS' STRIKE.

Omaha, Neb., June 18.—The boilermakers of the entire Union Pacific system were today called on by the boilermakers' union to strike. About 300 men are expected to obey the order. There are less than 30 boiler makers employed in the local shops, but the entire number quit work today. The strike is ordered in connection with a combination of labor troubles in which the recent closing of the iron moulding department of the trade figures, and several of the leaders stated today that it might result in strikes in other departments.

Local officers of the Iron Moulders' union were notified Sunday that work had been stopped in Chicago on the Union Pacific patterns, and this fact makes the situation more complicated. Officers of the road as well as the labor leaders were reticent on the subject, and both refuse to discuss the matter. It is known, however, that the demands of the men for an increase of wages and reduction of hours are insignificant, and do not figure materially in the causes for the strike.

ESCAPED CONVICTS STILL ELUDE THEIR PURSUERS

By Associated Press.

Vancouver, Wash., June 18.—The search for Harry Tracy and David Merrill, the escaped convicts from the Oregon penitentiary, so far at least as the armed posse which has made this city its headquarters for the past three days is concerned, has been abandoned for the time being, and the majority of the officers, detectives and the militiamen returned here this evening weary from their long vigil and chagrined by failure in their effort to bring in the human game.

Nothing has been seen of the fugitives since yesterday evening, when they passed through a farm near here on horseback. The general opinion of the pursuers is that the outlaws are still in the woods south of Lewis river. A close watch has been kept at all crossings of the river and the officers do not believe that the desperadoes crossed the stream last night or today.

Proof that the convicts are in the timber along Lewis river came today in a report by a man named Lindsley, who runs a logging camp in that vicinity. He informed the officers that the convicts appeared at his place in the woods late last evening and demanded supper, which was given them. After supper they went away, but in which direction the informant could not tell. This story was reported here by returning members of the posse tonight and its truth is not vouched for by anyone in authority. It is also reported by Detective Kerrigan of Portland, who returned here tonight, that Sheriff Huntington of Cowlitz county, between which and Clark county the upper fork of Lewis river is the dividing line, has taken up the search on the north side of the river and has posted men to guard all crossings, while Sheriff Marsh still maintains armed watchers on the Clark county side of the river.

Denver is [illegible] Pitcher McCloskey. [illegible] the Western league [illegible] the Denver team the [illegible] gregation for the pennant will be considerably [illegible] Little Rock, Arkansas, claims McCloskey and the National Association of Minor Leagues backs the claims of the Arkansas team. It is up to Packard to release McCloskey or pay Little Rock [illegible] for him. No doubt Little Rock would rather have the money than McCloskey, as such a pitcher is not needed in the league in which Little Rock is playing, but the Arkansans hold the winning hand and will doubtless play it to a finish.

Tomorrow the home team finishes the home series of games and goes away for a trip which will include all the other cities in the league. From here the Millionaires will go to Kansas City for four games, opening there on Saturday next and playing four games. Tomorrow's game will be the last on the home grounds until July 12, when the Springs takes on Kansas City for three games.

Denver seems anxious for Colorado Springs to win a few games. Many backs Colorado Springs want Denver to defeat every team in the league except Colorado Springs. We would like to see the season end with Colorado Springs first and Denver second.

MONKEY BIT PIECE OFF OF A MAN'S EAR

An excited little monkey by the name of "Jocko" bit off part of a man's ear at the dog and pony show Tuesday, and it is probable that the company will be the defendant in a suit for heavy damages.

James Welsh, a stonecutter, was entering the tent when he stopped to look at a monkey perched on a donkey's back. As he turned away the monkey leaped on Mr. Welsh's shoulders and bit off part of the man's ear. On this account it is stated that Mr. Welsh will file the company for $3,000 damages. Judge Elston is representing Mr. Welsh.

Dr. Harriman's patients have been pleasantly disappointed by being cured after other methods have failed. The same pleasant disappointment awaits you. Offices, 418 Colorado avenue, Colorado City, 320 North Tejon, Colorado Springs.

THE FIGHT FOR ELKTON

De La Vergne and Aldrich Factions Are Working Their Hardest to Secure the Control of the Company.

Not since the memorable fight for the control of the Isabella company has there been so much excitement in mining circles as there was all day yesterday on the announcement in the Gazette that General Manager De La Vergne was to secure proxies to vote in opposition to the present control of the Elkton company.

The sentiment in the best-informed circles seems to be divided between the Aldrich and De La Vergne factions. Some believe that Mr Aldrich will have the best of it, because he has had his proxies out among the stockholders for some time, while others contend that the stockholders will be unwilling to allow the control of so important a company to pass into the hands of a brokerage firm.

A member of the firm of Shove, Aldrich & Co., announced yesterday that in the event that Mr. Aldrich controlled the meeting he would come before the new board of directors as a candidate for the presidency. Mr De La Vergne on the other hand has declared that he does not want to be president, merely desiring the election of those who have had practical experience in mining to the directorate.

The issues of the contest are likely to be bitterly fought and it is generally acknowledged that many unexpected developments are likely to come up before the contest is decided. Mr De La Vergne is now preparing a circular making very definite charges against the present management, while Mr Aldrich, it is understood, will on his return to the city issue a similar one, making also strong replies to the points urged against putting the company into the hands of a brokerage firm.

THE DEAN LEASE

Gold King Claim of the Savage Company is Becoming a Most Valuable Holding—Just Makes Record Shipment.

The Dean lease on the Gold King claim of the Savage Gold & Copper Mining company has lately developed into one of the best mines on Gold Hill. Returns were received at the offices of the company in this city yesterday from a shipment amounting to [illegible] tons which was settled for at the rate of $41 in gold to the ton. The gross value amounted to $1,[illegible], the net value $[illegible], while the company received a check as royalty amounting to $324.[illegible]

This is the largest and best shipment which has ever been made from the claim and consequently the largest royalty the company has ever received. Moreover it appears that Lessee Dean has a showing in the third level of the mine which will enable him to make several more shipments of the size and value of the one just settled for. He has an excellent body of ore at this depth which is averaging between two and three feet in width, while all the assays are keeping above two ounces in gold to the ton.

The Gold King claim is divided in two, one half of which belongs to the Progress company, where a strike was recently made by lessees working in that ground. The portion belonging to the Savage company has been worked continuously for a couple of years and some ore has been got out right along, but a very substantial improvement has lately taken place in the character of the ore. The claim has not yet been developed by the Savage lessees below the [illegible]00 foot point, but it is likely that sinking for another lift will soon be under way.

The Savage Gold & Copper Mining company is an interest of the McKinnie-Davis company of this city and owns in addition to the Gold King and other claims in Cripple Creek a large acreage of copper lands near Silver City, N. M., and a controlling interest in valuable zinc, lead and copper properties near Nogales, Arizona.

LITTLE NELL STRIKE

Ore is Being Saved for Shipment That Will Run Better Than $500 in Gold to the Ton.

Reliable information from Cripple Creek was received in this city yesterday to the effect that the strike which has been made by Carrington and Harcourt on block 1 of the Little Nell property is one of the biggest things which has occurred for several weeks in the district. The winze which is going down below the 1[illegible]0 foot level in the property is with every shot revealing ore of greater value than it was showing before, until now the assays which are being obtained are running into four figures. The strike is characteristic of some of the rich rock which has been taken from the Arequa townsite and the vein is well formed and promises to widen with depth.

The lessees are now saving ore which they believe will ship over $500 in gold to the ton and as the streak from which this grade of rock is being obtained averages between 12 and 18 inches in width, a good amount of ore is being saved right along.

The strike has not been generally known until within the last day or two, the first general knowledge being gained from the article published in these columns yesterday, and it was not until late yesterday afternoon that the bonanza nature of the discovery began to be known.

The strike has become known in some quarters in Cripple Creek and is creating a considerable amount of excitement, especially among those holding interests in adjoining ground on the Arequa townsite. Several lessees are working in the neighborhood and they expect to drive for the vein at once. The property lies on the slopes of Raven hill adjoining the Elkton and much confidence is felt over the showing which it will make when greater depth is attained.

Mining News Around Town

A meeting of the stockholders of the company owning the Dorcas mill at Florence will be held within a few weeks to consider the question of building an addition to the plant. The mill for the past few weeks has been running at its full capacity, 110 tons a day, and as the ore bins are holding in reserve very large quantities of ore, and as even the capacity of these bins is unequal to the ore which is being offered to the company, it is believed that an addition to the plant would be profitable. The plant will make a record during the month of June as it has never before treated so much ore. The Dorcas is not involved in the mill trust but no difficulty has been experienced in securing all the ore contracts which can be taken care of.

SHIPMENT FROM THE HILL SIDE PROPERTY

The lessees on the Hill Side claim of the Creede and Cripple Creek company have just marketed a shipment of 20 tons which is expected to return about $30 in gold to the ton. The ore is coming from the lowest level of the mine and was taken out in the course of development work. The lessees have opened the property in such a way that regular shipments will now be possible for a long time. The shaft is 3[illegible]6 feet deep and ore has been blocked out on two levels so that stoping can be carried on in several different places. This claim has never before been developed in so systematic a way and the results of this work are beginning to be felt. It is believed all of the ore will run $30 to $40 per ton.

ANOTHER DISCOVERY IN THE BLUE BIRD MINE

Another good discovery has been made in the course of development work at a depth of 1,100 feet in the Blue Bird mine on Bull hill. In a drift on the vein north of the shaft the workings have entered a shoot of ore worth all the way from $50 to $300 in gold to the ton, and the breast of the drift is looking very promising for permanency. This is the latest of very encouraging developments at a depth in this mine. The mine was a few years ago thought to be a hopeless proposition as the ore shoot had pinched at a depth of 350 feet and much development below that point failed to reveal the presence of any ore. It was not until the present depth was attained that pay ore was found again.

ONE SHAFT OF THE HULL PLACER AT WORK.

Although the main shaft of the Hull City placer property, belonging to the Independence Consolidated company, has caved in and is now being examined by Inspector Nye, the old King and Whiting shaft is being worked regularly and the lessees are sending out about 10 tons of ore a week. The shaft is an old affair, and would be inadequate to operate the mine unless enlarged, but it is about as deep as the principal one. The ore which the lessees are taking out comes from the 300-foot level and is averaging about $40 in gold to the ton. The main shaft will probably not be available for use for some time, which is especially regrettable in view of the fact that, had not this accident occurred, the company would have been out of debt by the first of the month.

FAY CLAIM WILL HAVE A 200-FOOT SHAFT

A contract has been awarded by the owners of the Fay claim on Beacon hill to put the shaft on that property down to the 200-foot point. The present depth is 75 feet and Woodward and Sherer, who were awarded the contract, will push work as rapidly as possible. The claim is owned by Chicago investors who have not worked the claim for a long time, but the recent developments on this section of Beacon hill have been encouraging enough to warrant them in starting work on a good scale. The intention is to crosscut the property at a depth of 200 feet for veins which are supposed to cut the claim.

LA BELLA MACHINERY HAS NOW BEEN SHIPPED

The machinery for the La Bella power plant was shipped from the eastern factory the first of the week, but it will be 10 days or so yet before it can be received and put in place. The accident to this plant has caused several of the properties dependent upon it for air for their machine drills to suspend operations and they are anxiously awaiting a resumption of work at the plant. The accident was caused by a blowing out of the piston heads, and as the damage to the machinery was of a nature which could not be repaired in the state, the factory had to be appealed to to supply the broken parts.

MARY M'KINNEY IS AVERAGING 100 TONS.

The production of the Mary McKinney mine is now averaging 100 tons of ore a day, which exceeds all previous productions from this bonanza property. It is estimated that the average value of the output will reach $40 per ton, which would make the gross value of the month's production, calculating that 3,000 tons will be marketed, about $120,000, which is a record made by only two other mines in the district. The Mary McKinney company pays only $10,000 a month in dividends, but it is believed that this amount will be materially increased just as soon as the ore shoot is opened in the sixth level. It will probably be two or three weeks yet before the vein is reached at this depth.

SHIPMENT LEAVES A RICH ANACONDA LEASE

A shipment of high grade ore will be made tomorrow from the Pinson lease on block 41 of the Anaconda company's Gold hill territory. The ore is coming from the shoot recently developed below the tunnel level, and the assays indicate that the shipment will return values of at least $80 per ton, as the assays exceed this figure in many instances. The ore shoot is still averaging 30 inches in width and is growing better as development work progresses. The lessees hope that as it is followed a widening will take place, although even the present size of the shoot will enable them to get out a very good amount of ore.

CONTRACT GRANTED FOR WORK ON ZOE PROPERTY

A contract has just been granted by Hanson and Best, leasing on the Zoe fraction on the Arequa townsite, for 100 feet of sinking which will put the shaft 700 feet deep. The lessees have developed an excellent shoot of ore at the 600-foot level more permanent than anything which has been previously opened up in the property, which goes to establish the reputation of Beacon hill for consistency of values at depth. They have opened up the shoot for a distance of 68 feet and find that it averages about $80 in gold to the ton. They are sending out shipments with good regularity.

EASTERN MARKETS

New York Stocks.

By Associated Press.

New York, June 19.—There was quite an animated shaking out of speculative accounts in today's stock market and a sharp reaction from the recent prolonged advance. It became evident soon after the opening this morning that the real culmination of the rise had occurred yesterday. The leading speculative interests in the market apparently took advantage of the stimulating influence of yesterday's excited rise in Illinois Central to take profits. This morning there were some operations that seemed to represent continued efforts to advance the market by one or two of the important speculative parties whose joint efforts have induced the late rise. But the effective support of the principal speculative interest was lacking and the professional traders were able to detect sales to take profits for that account. They needed no other invitation to turn aggressively to the bear side and sold the list throughout with great freedom. Prices gave way readily and fell on an average from one to two points below last night's level. The bears were so precipitate in their selling that they were obliged to bid quite urgently for stocks when they came to take profits, causing some good rallies. With the demand from shorts satisfied the market yielded again and closed dull and irregular.

The whole movement was technical and was as little affected by news of the day as the previous advance had been. The activity of the bears was evident in the circulation of alarmist rumors afterwards denied. One was that Mr. J. P. Morgan was seriously ill. Another was that a fresh judicial decision had been rendered against the United States Steel bond issue. The earlier weakness was confined to stocks which have been favorites during the bull campaign, but active selling of United States Steel developed under the influence of these rumors and carried that stock down 1⅜ below last night. The long continued rise in stocks has made the professionals alert for signs of reaction which was considered over due. The short selling from time to time has encouraged the bulls to extend the advance and force covering. A large portion of this short account was forced out in yesterday's jump in prices, adding to the technical weakness of the market today. The stirring of interest by outsiders, which was first manifest yesterday, also facilitated the profit-taking by the insiders in the bull campaign. There was no unfavorable news today which has not been under discussion for some time past. But in the changed sentiment of the speculation additional consideration is given by the national convention of coal miners and the effort to bring about a general strike. The too abundant rains where wheat harvesting is in progress and the continued drought in Texas also received more attention than hitherto. Sterling exchange was still firm here and declined at Paris, both movements tending to increase the pressure on New York for gold. Various new bond issues which are being advertised indicate large requirements upon the supply of credits in addition to the demands for the coming semi-annual settlement. Individual causes aggravated the weakness of some special stocks. Doubts were expressed over the maintenance of the present dividend rate of Colorado Fuel. Minor incidents of the day were declines of [illegible] points in International Power, 4[illegible] four in Rutland preferred and 4½ each in Ice preferred and Brooklyn Union Gas.

Bonds were weak in sympathy with stocks. Total sales par value $3,110,000.

United States bonds were all unchanged on the last call.

The London Market

By Associated Press.

New York, June 19.—The Commercial Advertiser's London financial cablegram says:

The Ascot races continue to be responsible for a thin attendance on the floor of the stock exchange. The tone of the market today was dull. Consols sold at 96 [illegible].

Americans early were hard above parity until New York caused a full point break on talk that the local strike would spread to the bituminous regions. Canadian Pacific sold from 140 to 13[illegible] 1-2.

Copper sold at £53 1-2 to the ton and Rio Tintos at 44 [illegible]-8.

Money on call began at 2 1-4 per cent and closed at 3 per cent on preparations for the end of the half year and on the approach of coronation week.

Silver is weaker on a lesser demand for coinage purposes.

Metal Market.

By Associated Press.

New York, June 19.—Prices for tin at New York were half cent lower, closing with spot at $28.25@28.75. This decline was largely due to a decline of 15s at London, that market being influenced by liberal offerings from far eastern markets. London closed with spot at £126 5s and futures at £121.

Copper was dull and easy here, while London was 15s higher, closed with spot at £53 10s and futures at £53 15s. New York closed with standard, spot to August at $11.80@11.80. Lake $12@12.45, electrolytic and casting, $11.95@12.12 1-2.

Lead showed no change from previous quotations of 4 1-8. London also remained at former quotations of £11 5s.

Spelter was unchanged all around with London at £18 15s and New York at 4 1-8.

MIDGET PRODUCTION

[illegible] Tons of Smelting Grade Ore Is Being Sent Out Each Month From the Gold Hill [illegible] Complete.

Special to the Gazette.

Cripple Creek, June 19.—A production of close to 400 tons of smelting grade ore is being made each month from the Midget property on Gold hill. Every part of this ore is being taken out in the course of development and no stoping is being done. The policy of the management has been to develop and now the only production being made is the ore taken out in development work. The two levels at the property are being extended and it is expected that these levels will cut the junction of a number of veins and open up larger ore bodies. Superintendent Travarthen has just returned from his trip to California, and yesterday after an examination of the workings, expressed himself as greatly pleased with the ore reserve.

Gilmore and Searles operating shaft No. 6 of the Work company's property have increased the working force and from now on will make a larger production. During June these lessees will ship in the neighborhood of 80 tons of ore that will run better than two ounces to the ton. The ore is coming from the 300-foot level where the showing at the present time is very encouraging.

The continuation of the lowest ore shoot of the Prince Albert company's Beacon hill territory which was opened the other day by Lessees Wilcox and Taylor has been cut in the main working shaft of the property. The main shaft is under lease to the Beacon Mining and Leasing company. The ore was cut at a depth of 55 feet and the vein at this point is several feet in width. The vein has a northeast and southwest trend. A shipment is now being prepared and assays from the entire body indicate that it will run close to one ounce in gold to the ton.

Lessee C. A. Fitch, leasing on the Burns of the Acacia company, will send out a 25-ton shipment of $35 ore on Saturday.

The Gold Exploration and Tunnel company, operating the Smith Moffatt tunnel will probably reincorporate under the name of the Cripple Creek and Pueblo railway. As a railway company it may go ahead and condemn a right of way for the tunnel upon the ground that it is a railway and transportation proposition. Heretofore the tunnel was greatly hampered by reason of the fact that it could not obtain rights of way through necessary territory without a fight. On July 1 work on the tunnel will be resumed, it is stated, with a force of 100 men and with $100,000 capital.

A shipment is being prepared by Lessee Pullin operating on the Jerry Johnson. The ore is coming from the 300-foot level and the shipment is expected to return better than two ounces in gold to the ton.

Judge Goddard of Denver, who has the lease on the Pinto of the Free Coinage company, sent out a shipment of 50 tons today, expecting to return values of better than two ounces in gold to the ton.

Orwig and Ames, leasing on the old Davenport workings of the Doctor Jack Pot company, sent out a carload of ore today carrying two-ounce values.

Denver Live Stock

Denver, June 19.—Cattle receipts were fairly liberal again, there being over 3100 head in the yards this morning but the bulk of the arrivals being southern cattle bound north. The supply of fat cattle was light but included a load of hay fed steers which sold at $4.25. The movement of southern cattle continues heavy and a fair run is expected this week. There have been a few of these cattle on sale but the demand for stock cattle on the market is not strong, and most of the cattle go on north without changing hands, as buyers are not willing to give the prices asked. The general tone of the market is good and prices are firm and higher on the best beef steers and steady on the other kinds. Stockers and feeders, however, [illegible] dull and slow. A load of grass fat cows was on the market and brought $3.8[illegible]. They were rather green.

Hogs—Hog receipts were very fair today and the demand was steady, the top stuff selling at $7.2[illegible] to [illegible]. The demand is taking all the hogs that come this way and more are wanted. Eastern markets were higher.

Sheep—[illegible] of fat wethers in but they were consigned to a local packer and were not on the market. This is about the first shipment of grass sheep on the market. They came from Wyoming and were in fairly good condition. The general tone of the market is firm. Good mutton sheep are in demand and prices are steady.

WOMEN AT THE WORLD'S FAIR.

Mrs. Helen Boice-Hunsicker Says They Should Wear Good Clothes and Keep Their Hair Curled.

World's Fair Grounds, St. Louis, June 7.—In discussing the probable scope of duties of the board of women managers of the world's fair, Mrs. Helen Boice-Hunsicker, the member from Pennsylvania, says: "I agree with a commissioner from a western state who thinks that the women should be beautifiers instead of workers. I think the women could give the best service to the exposition by making suggestions for the finishing touches of the different exhibits to insure an artistic effect. Besides this," she added, "I believe we should put on our best clothes, keep our hair curled and play the hostess. There is a strong feeling in the national world's fair commission, from whom the women's board of managers get their appointments and instructions, in favor of having a building at the fair dedicated to American womanhood and home. I think it is a splendid idea, for it would show the foreigners, especially who believe that the American women walk slipshod over their husbands, that the men of America really have great respect and admiration for the women."

Hot Weather Weakness.

If you feel fagged out, listless and lacking in energy, you are perhaps suffering from the debilitating effects of summer weather. Millions of Women Use Cuticura Soap

MILLIONS of Women Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative, antiseptic purposes which readily suggest themselves to women, and for all the purposes of the toilet, bath, and nursery.

CUTICURA SOAP combines delicate emollient properties derived from CUTICURA OINTMENT, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humour, $1.00.

Cuticura The Set, $ Consisting of CUTICURA SOAP, 25c., to cleanse the skin of crusts and scales, and soften the thickened cuticle, CUTICURA OINTMENT, 50c., to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT PILLS, 25c., to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring itching, burning and scaly humours, eczemas, rashes, and irritations, with loss of hair, when all else fails. Sold throughout the world. British Depot: 27-28, Charterhouse Sq., London. French Depot: 5 Rue de la Paix, Paris. POTTER DRUG AND CHEM. CORP., Sole Props., Boston, U. S. A.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new, tasteless, odorless, economical substitute for the celebrated liquid CUTICURA RESOLVENT, as well as for all other blood purifiers and humour cures. Put up in pocket vials, containing 60 doses, price 25c. CUTICURA PILLS are alterative, antiseptic, tonic, and digestive, and beyond question the purest, sweetest, most successful and economical blood and skin purifiers, humour cures, and tonic-digestives yet compounded.

COLORADO CITY, JUNE 19.

Big Celebration for the Fourth

Colorado City's Fourth of July celebration this year bids fair to eclipse anything of its kind yet held in this part of the state. The committee appointed by the chamber of commerce and consisting of W. D. Ascough and Adam Geiger have had excellent success in securing funds to push the thing along. At an early hour last evening over $800 had been obtained and there is little doubt but that the $1,000 necessary to make the celebration go will be easily raised. Everyone is contributing and the spirit shown in regard to the matter is very commendable. Everyone realizes what a good big rousing Fourth of July celebration would do for the town. Yesterday was the first day the committee solicited any subscriptions and the success attained is better than anticipated.

In addition to the tournament to be given by the fire laddies and other minor attractions, a street fair will be made a feature of the day and week. The Colorado City Aerie F. O. E. No. 143 is now negotiating and the deal is about closed to have the street fair company that was at the Elks carnival at Victor and is now at Pueblo to come here for the week of June 30 to July 5 inclusive. This will prove a big attraction as the company numbers over 40 people and is very fine. The fair will be held either on South Fifth street or on South Sixth, probably on South Sixth. The inclosure will extend from Washington avenue to the creek with branches at the cross streets. This fair alone will bring big crowds to the city and the celebration and the tournament should make the Fourth a record breaking day for the city. Everyone should make a personal effort to make the day one of the greatest in the history of the town.

GOOD BALL GAMES ARE BEING SCHEDULED

Colorado City fans are awaiting with much interest the games between the Homesteads of Denver and the locals, the more so on account of the fact that the teams are the best two in the state league.

The Homesteads have won eight straight games against Colorado City's six straight and these games have been won from the same teams so it is difficult to tell exactly which is the better team. Neither the Homesteads nor the Colorado City team (with the exception of the Colorado City-Colorado Springs game) have lost a game.

The locals are confident of carrying off the victory but there is no doubt in the mind of any one but that both games will be fiercely contested by the Denverites. The latter team is said to be composed of semi professionals but whether that makes them invincible or not is a matter of conjecture. Both games will be played in Bott's park and will be called at 3:30 sharp. Hayden and Grueber will form the local battery for Saturday, Falk being reserved for Sunday.

WOMEN DELEGATES RETURN FROM FLORENCE

The delegates from the local order to the district convention of the Women of Woodcraft held in Florence Wednesday have returned happy over the fact that Colorado City has secured the next district convention to be held in June 1904. Colorado City also has in the person of Mrs. J. P. Bates a delegate to the grand lodge. This is considered a high honor, as there are only six delegates from the entire district. Heretofore the local lodge has not been very prominent in the affairs of the district, but since the other lodges have learned of Colorado City lodge's great growth in the past two years, from 27 members to 240, the local lodge has suddenly come to the front. The following delegates from here attended the convention: Nellie V. Bates, J. P. Bates, Margaret Considine, Lela R. Bridges, Ellen Kahl, Dr. D. W. Clark and Mrs. Mary D. Martin.

BRIEF CITY ITEMS

POLICE COURT—Three vags were all that was interesting in police court yesterday. They couldn't give sufficient reasons why they happened to be existing in this particular community at this particular time and were committed to a position on the street commissioner's gang.

ALLAM SOLD IT—It was erroneously reported in these columns yesterday that H. C. Kinsman had sold lots 24 and 25 in block 112 in the O. L. & Q. second addition to Colorado City from M. B. Corbin to Mrs. Sawyer, also a tract in the Sheldon addition from A. Z. Sheldon to Dr. D. A. Johnston. The sale should have been credited to John C. Allam and not to Mr. Kinsman as reported.

ENTERTAINED—George Geiger entertained the members of the Colorado City baseball team at a spread at his home on Lincoln avenue last night. The members of the team and their lady friends were present and all had an exceptionally fine time.

SOLD OUT—Frank Critcher has sold his rooming house in the postoffice building which he has been running for some time and will be connected with the Arensdale rooming house in the future.

WOMAN'S GUILD—The ladies of the Woman's guild, Church of the Good Shepherd, met yesterday afternoon at the home of Mrs. J. F. Walters on Colorado avenue.

PARTY—Miss Nellie Williams was the hostess at a party given Wednesday evening at her home on Washington avenue. Every one present had a very pleasant time. The guests were as follows: Misses Grace Corperan, Mabel Hendron, Clara Crittenden, Birdie Brannon, Mabel Bair, Effie McCants, Alma Borst, Lora Hopkins, Madeline Hirschenfield and Nellie Williams and the gentlemen were Messrs. Robert Sonneckson, Bennett Faulkner, Earl Welber, Leo Corperan, Thomas Martin, Bert Carson and Walter Gray.

Few boarders wanted. Home cooking. No children or invalids. Mrs. A. Olson, next south of Midland round house.

LOST—In Williams canon, pair gold rimmed glasses. Return to Mrs. T. Brazil, 1513 Grant, W. Colorado Springs.

PERSONAL MENTION

F. H. Borst is on the sick list.

John R. Watts, city attorney, has returned from a short business trip to Denver.

C. E. Corperan was in Pueblo Wednesday on business.

Alex Jodoin has gone to Cripple Creek to accept a position.

M. C. Nolan, a representative of the Goodyear Rubber company, is visiting here.

John R. Watt and wife expect to leave for Glenwood Springs to spend a few days and incidentally to be present at the Strawberry day festivities.

Dr. Courtney of Glenwood Springs is the guest of O. B. Bennett for a few days.

Mr. and Mrs. Frank Drew will leave next week on a tour of the old world. They will be gone about a year.

Constipated Bowels.

To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. DELIGHTFUL EASTERN TRIPS

The Lake Shore & Michigan Southern railway has just issued a new summer book, "Lake Shore Tours," showing a selected list of Eastern resorts with routes and rates. Copy will be sent on application to Erwin Tears, Colorado passenger agent, 1017, 17th street, Denver, Colorado, or C. F. Daly, C. A. G. P. A., Chicago.

On the annual Strawberry festival in this state there is only one town on the map. The date is changeable, but the town is stationary, permanent, and on that particular day at least, the place is bigger than Denver. Glenwood Springs, June 21, A. D. 1902.

Manitou Branch Office at Grant's Curio Store, 291 Manitou Avenue.

ODD ADDRESS ON AN ENVELOPE

The local postoffice is in receipt of a rather odd and amusing letter with the following written all over the face of the envelope:

AT MANITOU, COLORADO,
  Just above the Soda springs,
I want this letter to go
  To a curio shop of relics, jewels and
    rings—
Not to the turkey who stops to gobble
And hold up tourists without a hob
    ble—
But to the man that has lost some
    bones
(Doubtless digging for precious
    stones)
Is of medium age, so now is found
Hard at his post the whole year
    round.

According to the postmark the letter was mailed at Oklahoma City, O. T. The office force has no clew to the positive identity of the person for whom the letter is intended, as there are so many curio stores in town. The most likely candidate to receive the letter is N. C. Hart, who owns a curio store on Ruxton avenue and also has two fingers of one hand missing.

BRIEF CITY ITEMS

SUNNY SIDE—J. G. Standsfield and son of Mt. Carmel, Ill., Mabelle E. Lowe of Denver and George J. Belerle of Chicago are guests at the Sunny Side.

SHRINERS—Already the Mystic Shriners have begun to pass through Manitou en route to their homes in the east from the imperial council in San Francisco. Several are now registered around at the different hotels.

GRAND VIEW—The Grand View had the following guests yesterday: Mrs. L. Lewis of Kansas City, Mrs. Emma T. Nolen, Bureth E. Nolen and W. F. Nolen of Palestine, Texas.

NEW ADDITION—C. G. Vaughn is building a new addition to his restaurant on Ruxton avenue.

IRON SPRINGS HOTEL—Charles Wilton of New York city, R. W. Cole of Omaha and O. E. Mackey of Chicago are among the guests at the Iron Springs hotel.

NOW MOVED—Neely Brothers, the grocers, are now moved into their new quarters on Ruxton avenue. They own the building they are now in and intend to make a nice place of it.

Neely Brothers, grocers, are now in their own building, the former quarters of Hart's curio store, Ruxton avenue.

MANSIONS—N. D. Jones of Pittsburg, Pa., Miss Elsie Southett of St. Louis, C. H. Wieaund and E. R. Pendy also of St. Louis, H. H. Hawkins of Sedalia, Mo., B. E. Stiles of Joplin, Mo., D. E. Evans of San Antonio, Texas, John W. Walker of Seattle, Wash., and E. W. Schloeman of St. Louis are stopping at the Mansions while in Manitou. They are members of the T. P. A.'s who are spending several days here.

TALLY HO—Some of the guests at the Mansions enjoyed a tally-ho ride around the city yesterday. A burro party was planned for last night.

FROM JERUSALEM—Madam Lydia Mountford, the noted lecturer, is in Manitou and is stopping at the Ruxton house. Madam Mountford was born and raised in Jerusalem, Palestine and is now preparing to tour this country lecturing on the Holy Land. She is accompanied by her manager, Naif J. Salim, also of Jerusalem, Palestine.

HOTEL PITTSBURG—P. F. Southwick of Macomb, Ill., D. Ray of Cincinnati, J. S. Peckam of New York city, T. A. Bryant of Texarkana, Arkansas, Oscar H. Boston and wife of St. Louis, A. E. Barrows and wife of Connersville, Ind., and C. E. Barrows and wife of Denver are at the Hotel Pittsburg.

RUXTON HOUSE—Morris Blasker of Carami, Ill., J. H. Lyon of Des Moines, Iowa, and T. A. Ford of St. Louis are stopping at the Ruxton house.

BONNIE CASTLE—Mrs. L. Kate Gordon of Denver, who was last year in charge of the Snider cottage up Ute pass, has, in company with her sister, Mrs. S. J. Toy, also of Denver, taken the Bonnie Castle for the summer and will run it as a first rate boarding and rooming house. The Bonnie Castle is on Ute avenue only one block from the postoffice and as the rates are reasonable it will undoubtedly be well patronized.

NEW ARRIVALS—The Cliff house has, in addition to several Mystic Shriners who are on their way home from San Francisco, the following new arrivals: S. B. Stewart and wife of New Orleans, Mrs. G. W. Davidson and F. M. Davidson of Champaign, Ill., Mrs. G. M. Walker, A. C. Mackey and S. S. Hinds of Denver, C. C. Kendall of Milwaukee, L. Litt, wife and son and D. A. Paddleford of Coleman, Texas, Mr. and Mrs. E. J. Goodspeed of Chicago, H. S. Hayes and wife of Greely, J. T. Barron of Columbia, S. C., K. M. Moore of Fannersville, Texas, T. C. Phillip and wife of Bowie, Texas, E. S. Manx of Kansas City and H. Manx of Fort Worth, Texas.

PERSONAL MENTION

Mr. and Mrs. Lester Grant of Cripple Creek are visiting Mr. Grant's father, C. A. Grant of this city.

Mr. and Mrs. J. E. Kennedy of Denver and Dr. and Mrs. E. J. McDonald of Anaconda, Mont., are guests of Mr. and Mrs. A. M. Daggett for a few days.

A. J. Uhl of Cameron, Mo., is here to spend the summer. He was here two years ago.

C. H. Irvin of Charon, Pa., is a guest at the Barker house. Mr. Irvin intends to walk up the peak today or tomorrow.

W. N. Pollack and wife of Mexico are visiting in Manitou and are stopping at the Mansions.

W. P. Rippee of Severance, Kan., and a party of friends are expected here in a few days to spend the summer with Mrs. W. A. Gates.

A Splendid Remedy.

Neuralgic pains, rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone and being absorbed into the blood its healing properties are conveyed to every part of the body and effect some wonderful cures. Mr. D. F. Moore, agent Illinois Central railway, Milan, Tenn., states: "I have used Ballard's Snow Liniment for rheumatism, backache, etc., in my family. It is a splendid remedy. We could not do without it." 50c and $1.00 at Hefley-Arcularius Drug company.

The Figure Puzzle is now running. Cash prizes of $150. See page 7.

Buying meats and groceries at a place where the management makes his patrons' interests and his own mutual. That is the kind of a store we run and it's this policy that is increasing our business. It means better goods at less money than elsewhere.

Our store is loaded with good things in all the delicacies of the season, our Meats and Vegetables being especially fine. For high grade fancy and staple groceries our prices are lowest in town.

Baggage Man

We sell the kind of trunks that give the baggage man the laugh when he tries to make firewood of them.

They are not trunks made in eastern factories but are made at home in our own factory and under our supervision. You get a better trunk and pay less if you buy it here.
